

TALEND DEVELOPER

Shaik Jojappa

Mail:skjojappa4g6@gmail.com

Mobile : +918639463486

OBJECTIVE:

Enthusiastic to be part of the technical and professional success of a firm which can provide me with opportunities that would enhance my professional skills and personal growth.

PROFESSIONAL SUMMARY:

- Having **2.6 years** of progressive experience with ETL tool **Talend ETL** Data integration, extraction transformation and loading.
- Exposure to Data warehousing concepts.
- Good Experience in understanding business application, business dataflow and data relation.
- Extensive experience in extraction, transformation and loading of data Integration from various heterogeneous source systems like Flat files and Relational Databases.
- Used ETL process to Extract, Transform and Load (ETL) the data into stage area and data warehouse.
- Expert in using different components in Talend like Processing Components (tFilterRow, tAggregateRow, tMap and tJoin).
- Custom Code Components (tJava, tJavaRow).
- Logs & Error Components (tDie, tLogCatcher, tLogRow).
- Database Components (tOracleInput, tOracleOutput, tOracleCommit, tOracleConnection , tOracleSP, tOracleRollback).
- Management Components (tFilelist, tFileCopy).
- Misc. Component (tRowGenerator).
- Good Knowledge on Data Warehousing concepts like **Star Schema, Snowflake Schema**, Dimensions and Fact tables.
- Good understanding of **SCD type1/2/3** concepts.
- Expertise in data analysis, data mappings and performance tuning.
- Working experience in using Oracle SQL, My SQL.
- Optimizing Talend jobs to increase the performance.
- Schedule and deploy the Talend jobs in TAC.
- Create task, execution plan and user in TAC.
- Monitor Logs & Error of Talend jobs in TAC.
- Ability to work efficiently, quick learning & working with new technologies to fulfill project needs.

Educational Qualification:

Degree/Exam	Institute	Year	Percentage/GPA
BTECH	KKR&KSR Institute of Technology and sciences	2019	6.6
Intermediate	NRI junior collage	2015	8.8
SSC	Z.P.H high school	2013	7.5

Achievements and Certifications:

Talend Data Integration v7 Certified Developer (Certificate number: 23371156)-Talend-07/02/22

PROFESSIONAL EXPERIENCE:

Working as **Associate Engineer** for **Virtusa Consulting Services Pvt Ltd** from **FEB 16th 2022 to 30-AUG-2024**.

TECHNICAL SKILLS:

ETL Tools : Talend ETL 7.3.1 /8.0.1
Operating Systems : Windows &UNIX,
Database :Oracle sql, My sql
Project Methodology : Agile(Jira)

MAJOR ASSIGNMENTS:

PROJECT-1

Title: GFTS Legal Tech Portfolio

Client: Citi Bank

Duration: Aug 2022 – Sept 2023.

Role: Talend ETL Developer.

Environment: Talend 7.3.1 /8.0.1, SQL, Oracle 17.2

Project Description:

The Global Legal Reporting utility provides a single repository of data gathered from various matter management and financial applications used in Citigroup. This repository serves as base for generating Business Intelligence reports that assists legal community in making business critical decision. The Global Reporting systems house the legal data from all different sources in one integrated environment. Business is query on this single integrated data store to obtain reports on global expense management, law firm management and monthly financial analysis.

Roles & Responsibilities:

- ❖ Attending the sprint meeting to understanding the client requirements clearly.
- ❖ Understanding low level designing documents and developed Talend ETL and jobs.
- ❖ Create ETL workflows using **Talend**. Develop jobs to extract, transform, and load data.
- ❖ Schedule ETL jobs for regular execution. Monitor job performance and execution metrics.
- ❖ Set up error handling with Talend components. Maintain logs and notify the team of job failures.
- ❖ Participate in daily stand-ups and sprint planning. Use JIRA for managing tasks and bug tracking.
- ❖ Identify and implement performance improvements. Optimize transformations to reduce processing time.

PROJECT #2

Title: RegInsight – EMEA-VC

Client: Citi Bank

Duration: - Dec 2023-June 2024.

Role: Talend ETL Developer.

Environment: Talend ETL 7.3.1 /8.0.1, SQL, Oracle 17.2

Project Description:

The **RegInsight – EMEA-VC** project is part of the **GFTS Legal Tech Portfolio** at Citi Bank. This initiative involves the creation of a comprehensive legal reporting system that consolidates and integrates financial and legal data from multiple sources across the EMEA (Europe, Middle East, and Africa) region. The platform ensures that Citi's legal and compliance teams can meet regulatory reporting requirements and perform detailed financial analysis. It supports reporting on legal vendor cost management, law firm performance, and compliance monitoring across various jurisdictions.

Roles & Responsibilities:

- Designing and developing ETL processes to integrate data from multiple sources (Oracle databases, CSV files, AWS S3) into the centralized legal data repository.
- Managing daily, weekly, and monthly task scheduling and error handling using Talend components like tOracleInput, tFileInputDelimited, tS3Get, tMap, tLogCatcher, and tSendMail.
- Collaborating closely with business analysts and developers to gather requirements and design solutions.
- Generating Business Intelligence reports that assist legal and financial teams in decision-making related to global legal expense management and law firm performance.
- Ensuring data quality, monitoring for inconsistencies, and identifying duplicate records.
- Providing timely notifications and error logs in case of data anomalies or process failures using tSendMail and other Talend components.

Declaration:

I hereby declare that the above mentioned particulars are true to the best of my knowledge.
