Education

Jawaharlal Nehru New College of Engineering (V.T.U)

Bachelor of Engineering in Information Science and Engineering

Achieved a cumulative GPA of 7.40 out of 10.0

Aug. 2020 – June 2023

Shimoga, Karnataka

Relevant Coursework: Object-Oriented Concepts, Data Structures and Algorithms, Database Management Systems, Web Development, UNIX Operating System

M.E.S.R.N. Shetty Polytechnic

Diploma in Computer Science

Aug. 2017 – Dec. 2020

Sirsi, Karnataka

Experience

Ekathva Innovations

Software Engineer Intern – Live Link

Aug. 2022 – Dec. 2022

Shimoga, Karnataka

- Developed, tested, and maintained code for the Student Result Management System, with a focus on quality, performance, and maintainability.
- Collaborated with senior engineers to understand project requirements and translated them into technical specifications.
- Engaged in code reviews and pair programming sessions to improve code quality and gain best practice insights.
- Troubleshoot, debugged, and resolved software issues, ensuring a seamless user experience.
- Contributed to backend development and infrastructure, receiving mentorship and guidance from senior team members.

Projects

Supermarket Billing System | C++, OOP, File Handling 🔒

[Live Link](#)

- Developed a Supermarket Billing System using C++ and OOP principles to manage products, customers, and transactions efficiently.
- Implemented file handling for persistent storage of product data, transaction history, and inventory management.
- Created a real-time billing system that calculates totals, applies discounts, and updates the inventory after each sale.

ChatConnect-message | Java, Eclipse, HTML, CSS, Spring Boot, Postman, WebSocket API 🔒

[Live Link](#)

- Developed a real-time chat application to facilitate dynamic two-way communication between users.
- Implemented the backend using Spring Boot and WebSocket API, achieving seamless real-time updates.
- Designed a responsive front end with HTML, CSS, and Bootstrap for enhanced user experience.
- Successfully integrated and tested using Postman to ensure robust communication flows.

BookHaven | Java, Eclipse, HTML, CSS, Bootstrap, Spring Boot, MySQL, Postman 🔒

[Live Link](#)

- Designed and implemented an online bookstore application with user-friendly navigation and book inventory management.
- Developed backend functionalities for user accounts, order processing, and database management.
- Enhanced the front end using Bootstrap and JavaScript for improved customer engagement.

Technical Skills

Programming Languages: Java, C/C++, MySQL,

Development Environments: Windows, Linux, UNIX, Visual Studio, VS Code, IntelliJ, Eclipse

Networking Protocols: Strong knowledge of TCP/IP, UDP

Frameworks and Technologies: Spring Boot, Hibernate, RESTful APIs, Maven, LabVIEW, Agile methodologies, WebSocket API, JSON, Thymeleaf, Tailwind CSS

Cloud Platforms: AWS, GCP, Azure

Databases: MySQL, PostgreSQL, MongoDB Atlas

Other Skills: debugging, problem-solving, , API backend development, independent work, collaboration, communication skills

Certifications

Ethnus Codemithra: Java Full Stack Developer: Completed comprehensive training in HTML, CSS, JDBC connectivity, MySQL database management, basic networking, basic aptitude, and core Java.

AWS Certified Cloud Practitioner: Skilled in fundamental AWS services, including EC2, S3. Knowledgeable in AWS pricing models, Networking cloud security best practices, Python and cost optimization strategies.

Achievements

LeetCode: Successfully solved over 300+ problems (DSA)–Live Link.

Leucine-Hackathon: I successfully completed participation in a project at the Leucine hackathon.–GitHub Link.

Coding Ninjas: Successfully solved over 200+ problems.–Live Link

Twitter: All of My Daily coding, DSA, Spring Boot, and project updates are posted on my Twitter.–Live Link .
