APPLICATION DEVELOPER | FLUTTER | DART

CAREER OBJECTIVE

Highly motivated and adaptable flutter developer with **7 Years** of experience in the IT industry. Seeking opportunities to contribute my expertise in innovative projects.

EDUCATION

2016	Bachelor of Technology (BTech)	
	Specialization in Electronics and Communication Engineering, Institute of Aeronautical Engineering, Hyderabad, Telangana, India, May 2016, with an aggregate of	80.42%
2012	Intermediate Public Exam (IPE)	
	Sri Chaitanya Junior Kalasala, IDPL, Hyderabad, Telangana, India, March 2012, passed with	96.40%
2010	Secondary School Certificate (SSC)	
	Siddhartha High School, Chintal, Hyderabad, Telangana, India, April 2010, passed with	92.00%

WORK EXPERIENCE

Organization	:	Prodware Solutions, Thane (Remote)
Designation	:	Senior Flutter Developer (Contract basis)
Experience	:	Jan 2024 – Present
Domain	:	Inventory Management, Multimedia

Project Name: **Pollpapa, USA**

- Contributed in the development of a social media application with functionalities similar to Instagram.
- Implemented bloc state management for seamless control within the mobile application, and complemented by integration with blockchain, web socket as the backend system.
- Designed and implemented features for user profiles, photo and video sharing, likes, comments, and direct messaging.
- Managing chat and messaging with Getstream.io in flutter.
- Integrated real-time updates and notifications using websockets and firebase for seamless user interaction.

Project Name: **NAPCO, Saudi Arabia**

- Engaged in enhancing the functionality of a mobile application, designed for efficient inventory management.
- Implemented GetX state management for seamless control within the mobile application, and complemented by integration with Oracle JD Edwards as the backend system.
- Utilized Dio for streamlined API integration and management within the mobile application, ensuring efficient communication with the backend system.
- Implemented DataWedge device integration to facilitate barcode scanning functionality within the mobile application, enhancing efficiency in inventory management processes.

Project Name: **JASUINDO, Indonesia**

- Engaged in the development of the functionality of a mobile application. Developed a specialized application tailored for coupon scanning, streamlining the process of redeeming discounts and promotions for users.
- Implemented GetX state management for seamless control within the mobile application, complemented by integration with Oracle JD Edwards as the backend system.
- Utilized Dio for streamlined API integration and management within the mobile application, ensuring efficient communication with the backend system.
- Conducted thorough unit testing on the developed solution to ensure its robustness, reliability, and adherence to functional requirements.
- Solution developed using MVVM architecture to verify the integrity and functionality of each component, ensuring seamless interaction between the Model, View, and ViewModel layers.

Organization : **247Commerce & Wow Codes**
Designation : **Flutter Application Developer**
Experience : **Mar 2023 – Jan 2024**

- Implemented social account integration features using Facebook and Google login functionalities for applications.
- Engineered dynamic widget layout building capabilities to enhance user interface customization along with map integrations for location tracking and route fixing operations (OpenStreetMaps, Bhuvan Maps, Google Maps).
- Utilized Firebase for efficient storage management and user authentication, leveraging phone and email verification methods.

- Resolved numerous bugs in existing applications using both native frameworks (Java for Android) and Flutter framework.
- Interacted with client APIs and REST APIs, and developed custom APIs using PHP and MySQL to facilitate data retrieval, deletion, and storage in mobile applications.
- Implemented local data storage solutions including shared preferences and SQFlite for efficient data management.
- Implemented face detection functionality in an Android application using Flutter packages.
- Enhanced application functionality by integrating third-party REST APIs and libraries.
- Utilized BLOC state management and Provider for efficient application state handling and data management.
- Designed a logistics application utilizing Flutter for the frontend, PHP for the backend, and MySQL for the database, tailored for integration with webfleet devices.
- Developed automated scripts to streamline project workflows, reducing manual tasks and ensuring timely project completion.
- Integrated multiple payment gateways including PAYPAL, Stripe, Razorpay, mPesa, payU, and Paystack for secure and seamless transactions.

Organization : **ACCENTURE SOLUTIONS PVT. LTD.,** Navi Mumbai (Remote)

Designation : **Application Development Specialist** (June 2022- March 2023)
Application Development Senior Analyst (Aug 2021- May 2022)

Projects: TABULA RASA HEALTHCARE, INC & SNHU

Role: Application Developer (Aug-2021 – March 2023)

- Design, build, and configure applications to meet business process and application requirements.
- Performing application upgrades, implementation, and enhancement of features in the application.
- Developed various scripts to automate project activities like scripts for reducing manual activities which helped in the on-time completion of the project.
- Working on various cloud platforms like cloud GCP, Amazon Web Services (AWS), VM cloud servers, and various database platforms like PostgreSQL, cloud GCP MySQL, and Amazon RDS.
- Performing analysis on application data for migration and merging activities of an application.
- Performing unit testing and writing various test cases for an application.
- Worked on the implementation of new modules in existing applications and enhancement of the application.
- Conducted code reviews and provided mentorship to junior developers.
- Worked on the integration of third-party APIs and services.

Organization : **TATA CONSULTANCY SERVICES LTD., Mumbai**
Designation : **IT Analyst**
Experience : **Jan 2017 – Aug 2021 (4 Years 7 Months)**
Domain : **Banking & Financial Services**

- Understanding and analyzing new requirements and communicating with the customers, internal staff, and team to determine planning, implementation, and integration of system-oriented projects.
- Good knowledge and working experience on **TCS BaNCS** core banking services.
- Work includes development on new requirements and enhancement of banking products using JAVA for frontend, COBOL for backend, SQL & batch jobs following SDLC/Agile methodology, and optimization and performance tuning using UNIX shell scripting.
- I have worked on various modules, like Loan module, Deposit module, General Ledger, and also have knowledge of ISO 8583, used for card transactions.
- Also worked for an NBFC, gained sound knowledge of Post Dated Cheques (PDC) management and Automated Clearing House (ACH).
- Finding root cause analysis and resolving application issues faced by end users. Implementation/upgrade of existing applications. Performing unit testing as per the test plan and test cases.

INTERNSHIP

Completed Internship program for the period May 25 2015 to June 15 2015 and May 17 2016 to June 2 2016 at **JAY ROBOTIX LEARNING (INDIA)**.

Conducted and organized robotic workshops for students of Telangana State Social Welfare Schools using STEM technology. Taught basic concepts of programming and its importance to 6th to 10th standard students.

CERTIFICATIONS

- **AWS Certified Developer – Associate** issued by Amazon Web Services (AWS).
https://www.credly.com/badges/5b4248fd-a48f-49f1-b854-b357a89f15cb?source=linked_in_profile
 - **AWS Certified Developer** issued by A Cloud Guru.
<https://verify.acloud.guru/275F1374D218>
 - **Flutter & Dart - The Complete Guide** issued by Udemy, August 2021.
-

SKILLS

Software Skills	: DART, Flutter, Unix shell scripting, PostgreSQL, MySQL, Oracle database, firebase, COBOL, XML, C, DB2, Firebase, JAVA, API Management, PHP, MongoDB, Hive, SQLite, State Management(BLOC, getX, Provider).
Secondary skills	: CSS, HTML, AWS
Industry Knowledge	: Root cause analysis, Debugging, Unit testing, Performance tuning, Problem-solving skills, Critical thinking, Application Architecture (MVC, MVVM)
Tools & Technologies	: Android Studio, Xcode, Postman JIRA, bitbucket, BEYOND COMPARE, MS Office, iReport, SOAP UI, SQL developer, WinSCP, VIM editor, GIT, VS code
Methods	: Waterfall method, Agile/Scrum methodology

ACHIEVEMENTS

- Throughout my TCS work experience, with steady performance got a **4.5/5** rating in all my Project end Appraisals.
 - Received appreciation from clients for timely and efficient work.
 - **Got promoted to Technical Lead within 7 months of joining Accenture, which happens in rare cases.**
 - Received appreciation from the Accenture Leadership team for excellent work on the project.
 - Scored within the **top 1%** of the Board of Intermediate Education, at two-year course (Class XII) level in the examination held during the academic session ending March-April, 2012.
-

EXTRA CURRICULAR ACTIVITIES

- Participated in prestigious **GUINNESS WORLD RECORDS** "Largest online photo album of people displaying a digital certificate" by Accenture and earned a certificate of participation from GWR.
 - Won Special Initiative Award & Beyond Performance Award at TCS.
 - Participated in various social activities like tree plantation and volunteering at Govt. Schools.
-

STRENGTHS

- I am a **quick learner** and have **adaptability** skills.
 - I have a smart working ability and am good at time management.
 - I am an **optimist** and a self-motivated person.
-
