LinkedIn: [linkedin.com/in/kirankumar-bp-b86062239](https://www.linkedin.com/in/kirankumar-bp-b86062239)

Profile

Enthusiastic Full Stack Web Developer with a passion for creating responsive, user-friendly interfaces. Skilled in both front-end and back-end development, with a keen interest in web technologies and fullstack development. Experienced in building projects that combine both design and functionality.

Skills

- Programming Languages: C#, Python, JavaScript
- Frontend Technologies: HTML, CSS
- Backend Technologies: ASP.NET, REST API, ADO.NET
- Database: SQL, SQL Server Management Studio
- Tools: Visual Studio, XAMPP
- Version Control: Git, GitHub

Education

B.E. in Computer Science and Engineering

KLE Institute of Technology, Hubli

CGPA: 7.45

2019 – 2023

II PUC (PCMB)

Vishwachetana Vidyaniketana, Residential School and College

Percentage: 85.83%

2017 – 2019

SSLC

JK English Medium High School

Percentage: 80%

2016 - 2017

Projects

Musical Instrument Database and Renting System

Developed an online shopping and renting platform for musical instruments. Users can add instruments to a cart, rent them, and make payments via online or offline methods.

Technologies: HTML, CSS, XAMPP Server (Backend)

Stock Market Prediction Using LSTM

Built a machine learning model using LSTM to predict future stock market prices based on historical data.

The goal is to assist investors in making informed decisions. Technologies: Python, TensorFlow, Pandas

Online Flight Price Prediction

Developed a predictive model for forecasting the future prices of airline tickets based on historical data.

Technologies: Python, Machine Learning (Regression), Pandas

Experience

Software Engineer

Vrushika Technologies, 2023 – Present

Projects

Inward-Outward Management System

Developed a system for managing vendor goods, outward goods, and tracking company transactions.

The system supports both data entry and reporting features.

Technologies: Visual Studio, C#, SQL Server, ADO.NET

Law University Online Admission System

Working on an online admission system for Karnataka Law University, where candidates can log in and select their college preferences. The system allocates the colleges based on ranks.

Technologies: Visual Studio, ASP.NET, C#, SQL Server, REST APIs

Intern

Samarth Meditech, Web Development, Nov 2022 - Dec 2022

Contributed to web development projects, enhancing user interfaces and implementing backend functionality for medical applications.

Certifications

- Python Full Stack Development Certification - Besant Technologies
- Python Programming Certification - Satvik Softech
- C Programming Certification - Satvik Softech

Achievements

- Participated in Handball at VTU Belgaum Zone
- Participated in Handball at Manipal University, Mangalore
- Participated in Kho-Kho at VTU Belgaum Zone

Interests

Web Designing, Photography, Sports, Music

Languages

- English: Fluent
- Kannada: Fluent
