OBJECTIVE

Detail-oriented Data Science graduate with expertise in data analysis, statistical modeling, and machine learning. Passionate about solving real-world challenges and driving impactful decisions through data-driven insights.

SKILLS

- **Programming Languages:** Python, R, SQL
- **Machine Learning & Deep Learning:** Scikit-learn, Keras, PyTorch, TensorFlow, SVM, Random Forest, XGBoost, Logistic/Linear Regression, Time Series (ARIMA, SARIMA), K-means Clustering, ANN, LSTM, Pre-trained Models (VGG16, Inception V3 etc.)
- **Natural Language Processing (NLP):** NLTK, spaCy, Word2Vec, BERT, GPT-based models
- **Data Analytics & Big Data:** PySpark, Web Scraping, Data Manipulation (Pandas, NumPy), Power BI, Tableau
- **Data Visualization:** Seaborn, Matplotlib, Plotly, Excel
- **Image & Video Analytics:** OpenCV
- **Core Concepts:** Data Structures (Lists, Stacks, Queues, Trees, Graphs, Hash Maps), Algorithms, Time/Space Complexity (Big O)

WORK EXPERIENCE

Data Science Intern (Remote)

Apr 2024 - Jul 2024

Unified Mentor

- **Crop Production Analysis:** Analyzed regional crop yields to uncover key production factors using Matplotlib and Seaborn.
- **Amazon Sales Analysis:** Identified top products and seasonal trends to improve sales strategies.
- **Heart Disease Diagnostic:** Conducted predictive analysis to assess key diagnostic factors.
- **Bird Strike Visualization:** Developed a Tableau dashboard to highlight bird strike trends from 2000-2011.

Skills Used: Data Analysis, Statistical Analysis, Predictive Modeling, Data Visualization, Machine Learning.

PROJECTS

The Art of Audio: Generating Text and Images

- Built an audio captioning model using LSTM, achieving a loss of 0.1194 with the Clotho dataset, and generated corresponding images using a Stable Diffusion pre-trained model.

Fake News Detection using LSTM

- Developed an LSTM model to classify news as real or fake, achieving a loss of 0.2816, using data scraped from sources like India Today and Times of India.

Stock Performance Analysis with Data Visualization

- Scraped and processed stock data from Moneycontrol, analyzed stock performance, and visualized trends and correlations using Seaborn, Matplotlib, and Pandas Profiling.

EDUCATION

Master of Science (M.Sc.) - Data Science

Bangalore, Karnataka

NMKRV College for Women, Bangalore University

Nov 2024

CGPA: 7.97/10

Bachelor of Science (B.Sc.) - Mathematics

Idukki, Kerala

Government College Santhanpara, Mahatma Gandhi University

Jul 2022

CGPA: 8.01/10

PUBLICATION

- *The Art of Audio: Generating Text and Images: Bridging Sound, Words, and Images Through Machine Learning* (Eliva Press, Jan 12, 2025)
A comprehensive exploration of using LSTM-based models for audio captioning and generating corresponding images with Stable Diffusion, bridging the gap between sound, text, and visual media.

LANGUAGES

- English
- Malayalam
