SUMMARY

Driven and knowledgeable Cloud Computing graduate with a Master's degree in Cloud Computing and 2.1 years of IT experience. Skilled in DevOps tools and cloud platforms, with expertise in automating deployments and managing cloud infrastructure. Proficient in programming languages such as Python, C++, and Java. Eager to leverage my cloud computing and DevOps expertise to deliver impactful solutions and contribute to the success of a dynamic organization.

EXPERIENCE

Software Engineering Intern

Jun '23 — Jun '24

Continental Automotive Component India Pvt Ltd

Bengaluru, India

- Designed and implemented CI/CD pipelines in Jenkins, automated builds on Git branch merges, reducing image build and push time by 40%.
- Developed a CloudFormation script to automate the creation of a complete Kubernetes infrastructure setup on AWS, significantly reducing manual process time.
- Constructed custom programs to synchronize data between Kubernetes volume mounts.
- Enhanced Elasticsearch stack by refining Helm chart configurations, updating log parsers, and optimizing log structures, improving log analysis and capturing comprehensive application data, thereby significantly improving log readability and clarity for users.
- Automated server management tasks with shell scripts for SSL certificate renewals for domains, dependency setups, and server resource cleanup, reducing manual effort and improving efficiency.
- Transformed old K8s deployment files to Helm Charts and configured Istio service meshes.

Programmer Analyst

Oct '21 — Nov '22

Cognizant Technology Solutions

Bengaluru, India

- Developed user-friendly interface components for a seamless shopping experience.
- Built real-time cart functionality for adding, modifying, and removing items.
- Integrated secure payment gateway for smooth transaction processing.
- Implemented keyboard navigation and focus management techniques to facilitate efficient navigation for users who rely on keyboard input.
- Participated in code reviews to improve code quality and maintainability.

PROJECTS

Automated Kubernetes Infrastructure and Platform setup on AWS with Terraform

- Developed Terraform scripts to automate end-to-end Kubernetes infrastructure setup on AWS, including VPCs, subnets, EKS clusters, EFS, IAM roles, policies, and S3 buckets.
- Created Terraform modules for Helm chart deployments, enabling customizable application configurations from a single global values file for streamlined management across multiple charts.
- Reduced manual setup time from 3-4 hours to 45 minutes, significantly enhancing deployment efficiency.

CI/CD Pipeline for Node.js Web Application

- Configured Jenkins on AWS EC2 with plugins for CodeDeploy, Git, and Node.js to automate deployments.
- Integrated Git with Jenkins for automatic deployment triggers on code commits.
- Developed Jenkins pipeline stages for Node.js build, version verification, and S3 artifact storage.
- Deployed apps using CodeDeploy agents on EC2, leveraging AMIs and launch templates.
- Set up AWS Auto Scaling and Load Balancers for high availability and traffic management.

Real World Capabilities of Datapipeline

- Developed a data pipeline using MinIO, Apache Spark, and Apache Iceberg.
- Dockerized Apache Spark, Iceberg, MinIO, and Jupyter Notebook for seamless deployment.
- Executed queries and captured data snapshots, storing them in MinIO buckets for efficient data management.

Container orchestration using Kubernetes

- Deployed containerized applications as microservices using Kubernetes.
- Built and managed a multi-node Kubernetes cluster for hosting and deployment.
- Integrated a continuous delivery pipeline for seamless microservice deployment.

SKILLS

Programming Languages: C++, Java, Python, Shell
Web Development: HTML, CSS, JavaScript, MongoDB, MySQL
Tools and Platforms: AWS (Amazon Web Services), GCP, Docker, Kubernetes, Linux, Git, Helm
DevOps and Infrastructure: Jenkins, Terraform, Cloudformation

EDUCATION

M.E in Cloud Computing , Manipal School of Information Sciences (MSIS),MIT, MAHE (GPA: 8.59)	Sep '22 — Oct '24 Manipal, India
B.E in Computer Science Engineering , K.V.G College of Engineering (GPA: 7.95)	Aug '17 — Aug '21 Sullia, D.K, India

CERTIFICATIONS

AWS Academy Graduate – AWS Academy Cloud Security Foundations.
