Education

NIT Srinagar (B.Tech)

CGPA: 8.053/10

2020 – 2024

Srinagar — India

Relevant Coursework

- Data Structures
- Computer Network
- Machine Learning
- OOPs
- Algorithm Analysis
- System Design
- Operating System
- DBMS

Technical Skills

Languages: Python, C/C++, HTML, CSS, JavaScript, Kotlin, MYSQL

Tools: Visual Studio, Android Studio, Tableau, Power BI, GitHub, Excel

Technologies/Frameworks: React.js, Node.js, Android Development, Linux, Machine Learning, Data Analysis

Soft Skills: Leadership, Teamwork, Deadline Adherence, Pressure Management

Experience

InteltyLabs Technologies

June 2024 – Present

Software Engineer

Gurgaon, Haryana

- Lead a team of 5 developers to create a new news section for the BitMart Android application, incorporating bullish and bearish functionality aimed at increasing user engagement by 30%.
- Developed a news portion on the BitMart crypto website, integrating features such as daily news, featured articles, personalized content, and reporting functionality resulting in a 25% increase in user retention.
- Managed the console UI to streamline report and content management, boosting administrative efficiency by 40%.

Public Works Department

January 2023 – February 2023

Frontend Intern

Gurgaon, Haryana

- Improved the user interface and user experience of existing web applications by 20% by implementing modern design principles and incorporating feedback from users and stakeholders.
- Collaborated with functional teams, backend developers, and project managers for 2 months to meet department goals.

Projects

Multiplayer Tic-Tac-Toe | *HTML, CSS, JavaScript, React, NodeJS, ExpressJS*

January 2024 – March 2024

- Engineered the backend using Node.js and Express to handle server-side logic and API endpoints, resulting in a 40% increase in response time and supporting over 10,000 users. Additionally, added 1-to-1 interaction between users.
- Integrated authentication system to manage sessions securely and increased user satisfaction by 20%.

Road Safety Dashboard | *Power BI, Python, Pandas, Numpy*

January 2024 – February 2024

- Leveraged advanced analytical techniques to extract insights from 3,07,974 different data points.
- Employed best practices in data visualization for decision-making and designed a comprehensive Power BI dashboard featuring 6-7 different graphs and one location map.

Travel Website | *HTML, JavaScript, Next.JS, Tailwind CSS, TypeScript*

December 2023 – January 2024

- Delivered high-quality user interfaces using Next.js 14, and Typescript, resulting in a 40% increase in user satisfaction.
- Optimized performance by 58% through the implementation of design strategies based on user reviews and suggestions.

Portfolio | *HTML, CSS, JavaScript*

June 2023 – August 2023

- Designed a responsive and accessible multi-page portfolio website, reducing the loading time by 39%.
- Utilized SCSS for optimization and enhanced user satisfaction rating to 3.5 stars based on customer feedback surveys

Diabetes Prediction | *Python, Pandas, Numpy, Matplotlib*

February 2023 – March 2023

- Developed an ML regression model to predict diabetes status, increasing model efficiency by 24% .
- Achieved an impressive 77.34% accuracy rate by implementing advanced feature processing techniques, resulting in enhanced data analysis and improved decision-making capabilities.

Achievements

Programming

2020 – 2024

Student

NIT Srinagar

- Solved 2000+ DSA challenges across various platforms, showcasing proficiency in algorithmic thinking and coding skills.
- Ranked 3rd Rank among college peers for coding on GeeksforGeeks, achieving a score of 3780.
- Recognized as a "Knight" on LeetCode ranking in top 20%, with a demonstrated record of solving over 700 Problems.
- Attained the monthly topper badge on Code Studio, surpassing 993 participants.
