

Kalakonda Rakesh

Seeking a responsible career position which will utilize my technical skills and knowledge and gives an opportunity to enhance my career prospects which contribute to growth of the company and move towards professional success in life.

Educational Background

- Bachelor of Technology in Computer Science and Engineering at Ace Engineering College, Hyderabad, 2023.
- Intermediate from Sri Chaitanya Junior College, Hyderabad, 2019.
- Secondary School Certificate from Bhashyam High School, Hyderabad, 2017.

Projects

College Database Management System.

- Developed a comprehensive College Database Management System aimed at improving the efficiency of managing student, course, and faculty information for a fictional college. Created a relational database using an entity-relationship (ER) model to ensure data integrity and efficient organization of student, course, faculty, and enrollment records. Implemented SQL queries for data manipulation, including insertion, updates, deletions, and complex queries for reporting purposes, allowing for effective data retrieval and analysis.

Diabetes Prediction Using Machine Learning Techniques.

- Developed a predictive model to assess the likelihood of diabetes in individuals using various machine learning algorithms. Gathered and cleaned a dataset from reputable sources, including key features such as age, BMI, glucose levels, and blood pressure. Employed techniques like normalization and handling missing values to prepare data for analysis.

Comprehensive Study of Deep Learning Bases Telugu OCR.

- Developed and implemented of an Optical Character Recognition (OCR) system for the Telugu language, leveraging deep learning techniques to enhance text recognition accuracy and efficiency.
