SUMMARY

- Results-driven Oracle Database Administrator with over 6 years of experience in optimizing Oracle 12c and 19c environments on Linux and Windows platforms. Proven expertise in high availability, disaster recovery, and performance tuning, with a focus on system optimization. Proficient in Oracle Real Application Clusters (RAC), ASM, Data Guard, RMAN backup/recovery strategies, plus Data Pump and OEM. Committed to leveraging technical skills to enhance database efficiency and drive operational excellence.

SKILLS

Operating Systems (Windows, Linux), Databases (Oracle 12c, 19c), Programming Languages (SQL), Scripting (KornShell, Bash), Tools & Utilities (Data Pump, RMAN, SQL*Plus, Oracle Net CA, Putty, OEM)

D Kalyan Ram

EXPERIENCE

April 2023 - June 2024

Oracle Database Administrator LTI Mindtree | Bengaluru, Karnataka

- Configured Oracle 12c RAC, enhancing system redundancy.
- Monitored and managed RAC databases with SRVCTL and CRSCTL.
- Enhanced database efficiency by implementing load balancing methods.
- Migrated databases from Non-ASM to ASM
- Designed automated backup and restoration processes using RMAN.
- Managed user roles, profiles, and privileges efficiently.

May 2019 - April 2023

Oracle Database Administrator BYJU'S Learning | Hyderabad, Telangana

- Enhanced storage capacity and performance by utilizing ASM.
- Managed physical standby databases using Data Guard to ensure high availability.
- Used OPatch utility to apply patches.
- Enhanced efficiency of database systems through EXPLAIN PLAN, TKPROF, and OEM.
- Assisted in maintaining network connections.

October 2018 - May 2019

Software Associate ICICI Bank | Hyderabad, Telangana

- Maintained Production, Development, Test and Non-Production databases round-the-clock.
- Performed daily database activities, including checking alert logs and verifying backups
- Implemented and managed Data Guard for disaster recovery, including DR rebuilding and switchover
- Executed schema refreshes to synchronize Test environments with Production.
- Monitored space utilization and resolved issues in data files, tablespaces, and disk groups

EDUCATION

January 2018

Bachelor of Technology | Information Technology
Vidya Jyothi Institute of Technology, Hyderabad

TECHNICAL EXPERTISE

Oracle Database Administration (12c, 19c, RAC, Data Guard, ASM, GoldenGate), Backup & Recovery (RMAN, Data Pump), Performance Tuning (EXPLAIN PLAN, TKPROF, AWR, Statspack), Database Management (SRVCTL, CRSCTL, OPatch), Scripting (KornShell, Bash), Automation (Automated Backup & Restoration), Database Configuration (Oracle Net, DB Links, Materialized Views).
