WORK EXPERIENCE

VIGA ENTERTAINMENT TECHNOLOGY PRIVATE LIMITED

14, Oct 2024 – Present, Bengaluru, Karnataka

Flutter Developer Intern,

As a Flutter Developer Intern at VIGA ET, I am actively involved in every stage of the app development lifecycle, from design to deployment, honing my skills in creating high-quality, user-focused applications. My dedication to learning and adaptability keeps me current with the latest technologies, preparing me to handle complex challenges and deliver top results.

CodeAlpha - Lucknow, Uttar Pradesh

June 10, 2024 – Oct 15, 2024 Remote, IN

Mobile App Developer Intern,

I have successfully completed my Mobile App Developer Internship at Code Alpha, where I gained comprehensive experience in the entire app development lifecycle, including design, development, testing, and deployment.

Campus Coder - Lucknow, Uttar Pradesh

Oct 23, 2023 – Dec 29, 2023 Remote, IN

Android App Development Intern,

During my internship at Campus Coder, I contributed to a real-world Android App Development project, focusing on designing, coding, and testing app functionalities. This experience honed my Android development, problem-solving, and teamwork skills, preparing me for future professional challenges.

Ficuslot Innovation Pvt. Ltd. - Bengaluru, Karnataka

17, Oct 2022 – 28, Dec 2022, Bengaluru, Karnataka

Mobile App Developer Intern,

- Developed complex **multi-page Flutter applications** with secure **Firestore authentication (email, phone, Google, Facebook)**. Experience implementing these features in live projects also.
- Developed UI for **NEWS Application** using **Model View Controller**, used Stream builder and Future builder and **integrated** through **REST API**.
- Worked on the designing, enhancement, bug-fixing and maintenance of **Live Android projects - OXA cab**, with **Java, XML and Firebase**.
- Build application using **Shared Preferences** for a seamless user experience in **Flutter** and **Android**.
- Developed cross-platform **mobile applications** using **Flutter** and **Dart**. Implemented efficient navigation and routing workflows. Possess expertise in **Android development** with **Android Studio** and **SDK**. Utilized **Firestore** and **SQLite** for **backend functionality**.

PROJECTS

ZEPSE | [Live](#)

Dart, Flutter, Java, Android Studio

Zepse is my Food and Drink Delivery app built by me. It is a live application on **Google Play Store**.

SOCIAL NETWORK APP | [Github](#)

Dart, Flutter, Firebase, Android Studio, Visual Studio

Developed mobile applications using Flutter and Dart, implementing robust navigation and user authentication via Firestore (email, phone, Google, Facebook). Utilized various widgets for a user-friendly experience.

ONLINE SHOPPING APP | [Github](#)

Dart, Flutter, REST APIs, Android Studio, POSTMAN

Create an advanced online shopping app with beautifully designed Login, Registration, and Home screens.

Seamlessly integrated POST and GET API functions for smooth server communication. Implemented strong

authentication for user data security, building trust and reliability.

TODO Android App | [Github](#)

Java, Room Database Library, Android Studio

Developed a robust Android app using Java and Android Studio, integrating **Room Database for seamless local CRUD operations**. Ensured efficient data management and storage with a beautiful UI design, demonstrating expertise in both database handling and Android development.

Android Projects (or Applications)

Designed and developed various Android applications such as IP Address Finder, Google Map Activity, JSON Array, Volley Database Insertion, Downloading Image from server, Gmail-like application, Cheat Chat App, Toast Displaying, List View, Fragments, Calculator, Geo-Location Service, Birthday Wish with embedded music and Animation and so on.
