

Kavi Arasan

Software Developer

Python | React.js | PostgreSQL | Postman | Fask and REST APIs
+916385424462 | arasansk54@outlook.com | Chennai, Tamil Nadu, India

PROFESSIONAL SUMMARY

Results-driven Software Developer with 2.5 years of experience in web design, testing, and backend development. Expertise in Python, Flask, PostgreSQL, and API integrations (Meta WhatsApp, Zoom). Skilled in delivering user-focused designs, ensuring quality through testing, and collaborating with front-end teams to create seamless applications. Committed to enhancing user experience and data security.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, HTML, CSS, SQL
- **Frameworks:** Flask, ReactJS, Selenium
- **Databases:** PostgreSQL
- **Version Control:** Git, GitHub
- **Development Tools:** PyCharm, Visual Studio Code, PgAdmin, Postman
- **Operating Systems:** Windows
- **DevOps:** Docker, YAML, Dockerfile, CI/CD
- **Libraries:** Numpy
- **Designing Tools:** figma, canva

PROFESSIONAL EXPERIENCE

Full stack Developer | 42andmore Digital Solutions | Apr 2024 - Present

- **Meta WhatsApp API Integration:** Enhanced communication capabilities within our applications by integrating Meta WhatsApp API, enabling automated messaging and improved customer interaction.
- **Marketing API Integration:** Streamlined marketing efforts by implementing marketing APIs, improving tracking, analysis, and campaign optimization.
- **Zoom API Integration:** Facilitated seamless video conferencing within our platforms through Zoom API integration, enhancing user collaboration and remote communication.
- Leveraging both front-end and back-end skills to develop robust and scalable web applications, ensuring secure, efficient, and seamless integrations.

Software Developer | Techgenzi Private Limited | Jun 2022 - Apr 2024

Back-End Developer

- Developed and integrated back-end functionalities for a user matrix project and WhatsApp API using Python and Flask REST API.
- Implemented secure database structures and collaborated with front-end teams for seamless integration.
- Resolved technical issues and managed the codebase using Git for streamlined collaboration.

Front-End Developer

- Translated design mockups into functional web applications in collaboration with UX/UI designers and back-end developers.
- Created and maintained user interfaces for a leave management system with a focus on user experience and responsive design.
- Conducted code reviews and bug fixes, contributing to improved coding standards.

KEY PROJECTS

- **User Matrix Project & WhatsApp API Integration:**
 - Designed and implemented back-end functionalities using Python and Flask REST API.
 - Ensured secure data management and integration with front-end systems.
- **Leave Management System:**
 - Developed user interfaces with a focus on seamless user experience.
 - Implemented responsive designs and conducted code reviews for quality assurance.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering in Electronics and Communications Engineering

ST. Mother Theresa Engineering College

Python Programming Language (2-Month Short Course)

Besant Technology
