EXPERIENCE

EVENTURERS SOLUTIONS PVT LTD | Web Developer

05/2023 – Present | Puducherry, India

BACKEND DEVELOPMENT

- **Developed and maintained PHP-based server-side applications**, ensuring efficient and scalable backend solutions.
- **Designed and optimized MySQL databases**, including schema design, indexing, and query tuning for fast, reliable data access.
- **Built and integrated RESTful APIs** with PHP to facilitate seamless frontend-backend communication.

FRONTEND DEVELOPMENT

- **Developed the frontend from scratch** using HTML, CSS, JavaScript and jQuery enhancing user experience with custom internal frameworks.
- **Optimized web application performance** through code splitting and lazy loading, significantly improving load times and user satisfaction.

PROJECTS

MONSTA MANAGEMENT AND WEBMONSTA

(www.monstamanagement.com ,
www.trophyspecialists.com.au)

CodeIgniter PHP Framework | MySQL | CSS | jQuery |
Ajax | JavaScript | WordPress

- **Integrated Monsta Management and Webmonsta sites** using custom APIs to synchronize and manage stock levels efficiently between store-level and e-commerce platforms.
- **Enhanced application performance** by profiling and optimizing code, resulting in faster response times.
- **Integrated AWS S3 for image storage**, optimizing backend infrastructure by offloading static assets to a scalable cloud solution. **Automated image backups and versioning** in S3 to safeguard against data loss and support rollback functionality.

SKILLS

ADVANCED:

- HTML • CSS • JavaScript • MySQL • PHP
- jQuery • Ajax • PrestaShop

INTERMEDIATE:

- C • C++ • Java • Python • APIs
- WordPress

BEGINNER:

- React JS • Laravel

CERTIFICATIONS

- Python and Machine Learning Fundamentals
- Certified in Computer Applications, Business Accounting and Multilingual D.T.P.

EDUCATION

Master of Computer Applications

Christ College of Engineering and Technology
2023 – 2025 (Current)

Bachelor of Computer Applications

Pondicherry University Community College
2020 – 2023 | CGPA: 9.42

INTERESTED

TECHNICAL

- Block Chain • Full Stack Machine Learning
- Ethical Hacking • Cyber Security

NON-TECHNICAL

- Creativity • Critical Thinking

AWARDS

1st Place, Drawing Competition, 2020
