## DOTNET DEVELOPER

### ■ PROFILE SUMMARY

- Dot Net Developer with 2.8 years of experience in developing and implementing robust banking solutions using .NET technologies.
- Successfully contributed to banking projects like BMO-CT Fraud Management and BMO-SLE, focusing on enhancing security, customer experience, and trade management within the banking sector.
- Skilled in analysis, design, coding, and debugging, with a strong emphasis on meeting client requirements and ensuring project success.
- Proven ability to collaborate effectively with team members, maintain efficient workflows, and deliver high-quality

### ■ CORE COMPETENCIES AND STRENGTHS

#### Technical Skills:

- ✓ ASP Dotnet
- ✓ MVC Framework
- ✓ MS-SQL
- ✓ JavaScript
- ✓ HTML & CSS
- ✓ MS Office

#### Soft Skills:

- ✓ Good communicator
- ✓ Flexible and Adaptable
- ✓ Excellent Team Player
- ✓ Executional Excellence

### ■ WORK EXPERIENCE

Engineer - Technology | Dec 2021 - Present  
Virtusa Consulting Private Limited

#### 1. **Project:** BMO-CT Fraud Management-Banking

**Technology:** .NET Technologies, ASP .NET, MSSQL, JavaScript.

#### **Project Description:**

Developed a fraud operations application for the Bank of Montreal (BMO) to track and manage fraud-related data. The application permits to categorize and mark customers involved in fraudulent activities, with various options to classify each case. The project was required to retrieve the relevant information, create fraud cases, and maintain detailed records for each. The application known as CT-Fraud is tailored to cater to the needs of the banking sector, enhancing security and customer experience.

#### **Responsibilities:**

- Played an important role in the analysis, design, coding, and implementation of the application.
- Ensured client satisfaction by meeting project objectives and maintaining clear communication throughout the project lifecycle.
- Collaborated with team members to understand requirements, implement code changes, and address bug fixes.
- Maintained a strong focus on client needs, user experience, and overall project success.
- Coordinated effectively with the team to complete the project on time, as per client requirements.

#### 2. **Project:** BMO-SLE-Banking

**Technology:** .NET Technologies, ASP .NET Development

#### **Project Description:**

Stock Loan Exchange is a comprehensive project focused on managing securities lending operations within the BMO Capital Markets division. The System handles both oncoming and outgoing trade transactions related to securities lending, interfacing with various third-party systems to ensure seamless data integration and processing.

#### **Responsibilities:**

- Ensured accurate data conversion and integration into the SLE system, maintaining data integrity throughout the process.
- Maintain a focus on client requirements, user experience, and overall satisfaction in delivering a banking solution.
- Understanding the requirements along with team members.
- Ensured client satisfaction by meeting project objectives and maintain open communication throughout the project.

■ CERTIFICATIONS
