Assignments

Title : HRCRM E360 Application Development and Support

Client : Morgans Stanley, USA
Period : May'2024 – Till Date
Role : CRM Technical Lead
Technology : Canvas App, Power Automate, Power Fx, MS Dynamics 365, Snowflake, JIRA, Configuration Migration Tool
Scope : Morgans Stanley is an American multinational investment bank and financial services company that, through its affiliates and subsidiaries, advises, and originates, trades, manages, and distributes capital for institutions, governments, and individuals.
The HRCRM E360 Application is developed using Canvas App for HR Department. This application helps HR Team to view Employee Profile Details, Shortlisting Employees, Onlisting/Offlisting Employees and Searching employees based on their talents. This application is used to track the Promotions and Timelines of the employees. The Dataverse is used to store the master data for application configuration. The employee talent data is stored in the Snowflake DB.

Title : RSA CRM Application Maintenance and Support

Client : RSA Insurance Group, UK
Period : Jul'2020 – Apr'2024
Role : CRM Technical Lead
Technology : MS Dynamics 365, USD, .Net 4.5, Microsoft Visual Studio 2017, Windows Server 2010, JIRA, Configuration Migration Tool, ServiceNow
Scope : RSA Insurance Group is a British multinational general insurance company headquartered in London, England. They support personal and commercial insurance with 13000+ employees for 9 million+ customers globally.
The application is developed in MS Dynamics CRM 365 to track the Contacts, Opportunities, Quote Summaries, Policy Summaries, Document Packs, Cases and Activities. The Opportunity to Quote process is implemented inside Dynamics 365 solution to generate Quote and Policy records from Opportunity. Unified Service Desk used for Call Center Journey and Call Guidance Scripts. The application is integrated with external applications such as Duck Creek, Biztalk, AIL, Williams Lee.

Title : USI CRM Application Maintenance and Support

Client : USI Holdings Corporation, USA
Period : May'2013 – Jun'2020
Role : CRM Technical Lead
Technology : Windows Server 2008R2, MS Dynamics 2011/2016, SQL Server 2008/2012, ServiceNow
Scope : USI Holdings Corporation is a leader in insurance brokerage and consulting. It is a leader in property & casualty and employee benefits. It is the #1 employee benefit communication and enrolment services provider in the USA
Customer had implemented applications in on-premise MS Dynamics CRM 2011 to track the Accounts, Contacts, Opportunities and Risk Assessment records. The scope of this project was to support and make enhancements in their MS Dynamics CRM Application. The Sales Force CRM data was migrated to MS CRM using SSIS Package and KingswaySoft software. The on-premise MS Dynamics CRM 2011 was upgraded to online MS Dynamics CRM 2016.

Title : MS CRM Application Upgrade and Support

Client : Black & Veatch, USA
Period : Jun'2012 – Apr'2013
Role : CRM Technical Specialist
Technology : Windows Server 2008R2, MS Dynamics 4.0/ 2011, SQL Server 2008, Scribe.
Scope : Customer is a global engineering, consulting and construction company specializing in infrastructure development in Energy, Water, Telecommunications, Federal, Environmental and Management Consulting markets. The group engages in all phases of building projects including design, engineering, financing, procurement and construction.
Customer had implemented application in on-premise MS Dynamics CRM 4.0 to cater the needs of their Global Marketing & Communications (GMC) project. The scope of this project was to upgrade the existing MS Dynamics CRM 4.0 application into MS Dynamics CRM 2011 version.
