PROFILE SUMMARY

Dedicated and adaptable professional with 3 years of hands-on experience in both development and production support with strong analytical and relationship building skills. Proven ability in managing critical projects and collaborating effectively with cross-functional teams. Looking for a challenging role in a reputable organization to utilize my technical and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector.

EXPERIENCE

Infosys, Chennai (Oct'21 – Oct'24)

Senior Systems Engineer (Feb'23 – Oct'24)

- Designed, implemented, deployed, tested, and troubleshooted applications on **Mainframe** using **COBOL, JCL, CICS and DB2 technologies**
- Handled job abends in production, **performed root cause analysis** and implemented corrective actions **to improve system reliability**
- Provided **mentoring** and **technical guidance** to the team
- Created detailed documentation of processes related to mainframe production activities

Systems Engineer (Jan'22 – Jan'23)

- Developed and maintained **JCL scripts** to execute batch jobs on the mainframe system
- Resolved production support incidents and monitored system performance metrics to **ensure optimal functionality**
- Monitored batch job executions and promptly responded to alerts to ensure system integrity
- Performed regular maintenance activities, including backups, restores, and refreshes, on the mainframe platform

ACCOMPLISHMENTS

- RISE AWARD** for my performance and contribution to the team
- Received multiple appreciation and recognition awards for client management and support

EDUCATION

St. Joseph's College of Engineering, Chennai
B.E. Electronics & Instrumentation | CGPA: **8.55**
