Objective

Seeking a challenging career by giving all my skills to my profession and update my knowledge by being a part of the dynamic organization which utilizes my potential and enhances my talent for the growth of the organization and to my satisfaction

Profile

Backend Developer with 2 years of experience specialising in Symfony, Laravel and NestJS for building robust APIs and scalable backend systems. Proficient in MySQL database management and implementing secure authentication mechanisms.

Skills

- Languages: **PHP, SQL**
- Web Technologies: **HTML, CSS, Bootstrap.**
- Frameworks: **Symfony, Laravel, NestJS.**
- Databases: **MySQL.**
- Cloud Platforms: **AWS (S3), cPanel.**
- Tools: **Postman, Swagger, GitHub.**
- Version Control: **Git.**
- API Development: RESTful APIs, JWT Authentication

Experience

Project Title: Shubhaprada

Role: Backend Developer

Duration: June 2023– June 2024

Company: Detrans Solutions LLP

Technologies Used: Symfony, MySQL, cPanel, REST APIs, AWS.

Key Responsibilities:

- Developed and maintained scalable backend APIs in Symfony, optimizing performance and data handling.
- Designed RESTful services for diverse functionalities, with a focus on efficiency.
- Managed database migrations and schema updates with Doctrine ORM.
- Implemented security measures, including data encryption, input validation, and CSRF protection.
- Deployed APIs on cPanel with minimal downtime, ensuring stable rollouts.
- Collaborated closely with frontend teams to align API integration with UI requirements.
- Applied role-based access control (RBAC) to secure endpoints and enforce authentication.

Project Title: Krishi Sampark

Role: Backend Developer

Duration: August 2024 – current

Company: Detrans Solutions LLP

Technologies Used: NestJS, TypeORM, MySQL, JWT Authentication

Key Responsibilities:

- Designed and developed the Krishi Sampark platform, focusing on complex workflows like driver-rider matching, trip management, and fare calculations.
- Implemented secure authentication mechanisms using JWT, alongside role-based access control (RBAC) and custom guards for different user types (drivers, riders, admins).
- Managed MySQL database, performing migrations, optimising queries, and ensuring database schema consistency across different environments.

Education

MCA

2020-2022

Bangalore University.

Soft Skills

- Strong analytical skills to debug, troubleshoot, and optimize backend code and processes.
- Flexibility in learning new technologies, handling change requests and adjusting to project shifts.
- Demonstrated interest in expanding knowledge of frameworks, tools, and best practices in backend development.

Certifications

- **Basic Computers** – from Career connect programme.
- **Digital Marketing**- from Career connect programme.
- **Entrepreneurship** – from Career connect programme.
- **Laravel framework**- from OBII KRIATIONZ.
