Pune

EXPERIENCE

Data Science intern

Institute of Advance Network Technology Pvt Ltd

01/2024 - 06/2024 Pune, Maharashtra

- Developed a regression model to predict house prices using Python
- Conducted exploratory data analysis to identify key features affecting prices
- Achieved an 85% accuracy on the test dataset
- Reduced data processing time by 40 hours per month by automating the ETL processes using Python and SQL.

Project: Predicting Forest Fires in the Algerian Region

Institute of Advance Network Technology Pvt Ltd

2024 Location

- Applied machine learning algorithms to predict fire occurrences based on environmental factors
- Visualized data trends and patterns using data visualization tools
- Reduced forest fire prediction errors by 30% through enhanced data analysis techniques.

Project:Movie Recommender System (using Streamlit)

Institute of Advance Network Technology Pvt Ltd

2024 - Present Pune, maharashtra

- Implemented collaborative filtering and content-based filtering techniques to enhance recommendation accuracy.
- Integrated Python libraries such as Pandas, NumPy, and Scikit-learn for data processing and machine learning model development.
- Designed an interactive user interface with Streamlit, allowing users to input preferences and receive real-time movie recommendations.
- Achieved 40% faster recommendation load time by optimizing data retrieval processes.

Interactive Online Sales Dashboard in Power BI

Institute of Advance Network Technology Pvt Ltd

03/2024 Pune, Maharashtra

- Leveraged Power BI data modeling to connect and manipulate multiple datasets, establishing relationships for optimized data analysis.
- Created customized visualizations (bar charts, pie charts, scatter plots, maps) to drive sales performance analysis and identify trends.
- Implemented real-time data updates and calculated KPIs, facilitating data-driven decisions for sales strategy improvements.
- Delivered analytics for 150,000 sales transactions monthly with high accuracy and speed.

EDUCATION

BE in Computer Engineering

Savitribai Phule Pune University

09/2021 - Present Pune, Maharashtra

SUMMARY

Data Scientist Aspiring Data Scientist with a strong foundation in computer engineering, data analysis, and machine learning. Proficient in Python, SQL, and data visualization. Seeking to leverage my skills and internship experience to contribute to impactful data-driven projects using predictive analytics.
