CAREER OBJECTIVE

Willing to work where my skills will enhance and can prove my ability. Intend to build a career with leading industrial gains with committed and dedicated people, which will help me to explore myself fully and realize my potential to full extent.

PROFESSIONAL SUMMARY

- Almost 4 years in analysis, design, development, and testing within the RPA space, specializing in business process automation.
 - Strong expertise in UiPath with proven experience in end-to-end development of automation workflows, adhering to standards and best practices.
 - Skilled in managing the RPA lifecycle, including requirements gathering, production support, and handling break-fix issues efficiently.
 - Developed and enforced coding standards, modularization, and reusability strategies, ensuring high-quality and scalable solutions.
 - Worked with Project Managers, Solution Architects, and business analysts to align development with business goals and troubleshoot issues.
 - Proficient in automating complex processes involving APIs, SQL, Windows OS, Citrix, MS Outlook, and MS Excel.
 - Knowledge of other RPA tools like Power Automate for broader automation expertise.
-

PROFESSIONAL EXPERIENCE

Senior RPA Developer

Corro Health, Hyderabad

March 2022 – Present

- Led the design, development and deployment of automation solutions, ensuring they met high development standards and industry best practices.
- Collaborated with solution architects and business analysts to design and implement scalable, high-quality automation workflows.
- Took the lead in troubleshooting complex production issues, providing post-deployment support and making enhancements as needed.
- Optimized the performance of automation processes, increasing efficiency and reliability across various departments.
- Developed bots that effectively handle exceptions, ensuring smooth and reliable automation processes.

- Conducted functional testing to ensure that bots performed as expected and met client requirements.
- Regularly communicated with the operations team, sharing progress updates, gathering feedback, and making improvements to the bots.
- Deploying the bots as per client requirement in their environment.

Software Developer

Reyan Digital, Hyderabad

October 2020 – March 2022

- Began as an RPA Trainee, mastering RPA fundamentals and UiPath capabilities.
- Progressed to Software Engineer, leading complex automation projects and developing high-quality, efficient solutions.
- Created, tested, and deployed RPA workflows that significantly improved process accuracy and operational efficiency.
- Collaborated closely with senior developers and technical teams to refine processes and troubleshoot issues, ensuring project success.

KEY PROJECTS

- **Project 1: Patient Data Validation Using Ciox Website**
Tool: UiPath Studio
 Automated validation of patient data by gathering inputs from clients, updating SQL with dispatcher bots, and performing validations with performer bots, leading to increased data accuracy and process speed.
- **Project 2: Compliance Checks for New Joiners**
Tool: UiPath Studio
 Streamlined the compliance verification process for HR and Compliance teams by automating checks across three compliance websites, reducing manual workload and ensuring compliance accuracy.
- **Project 3: MIS Reports Automation from ACS Website**
Tool: UiPath Studio
 Designed and implemented a bot to download MIS reports every two hours, including daily quality reports for the MIS team, saving time and ensuring report consistency.
- **Project 4: Automated Data Allocation for Coder Work Schedules**
Tool: UiPath Studio
 Built an automation for the operations team that allocates data to individual coders based on their upcoming work schedules, improving resource allocation and operational efficiency.
- **Project 5: Patient Data Compilation from Ciox Website**
Tool: UiPath Studio
 Automated the process of gathering patient details and remarks from the Ciox website, compiling necessary information for further processing by the coding team.

EDUCATION

Bachelor of Technology in Engineering

Cr Reddy College of Engineering (Affiliated with Andhra University)

TECHNICAL SKILLS

- **Primary RPA Tools:** UiPath
 - **Additional RPA Tools:** Power Automate
 - **Automated Technologies:** Windows OS, Citrix, Web, MS Outlook, MS Excel
-

PERSONAL DETAILS

Father's Name : Arjuna Rao.
Date of Birth : 14-05-1999.
Languages Known : Telugu, English and Hindi.
Marital Status : Married.
Nationality : Indian.

DECLARATION

I declare that the information and facts stated above are true and correct to the best of my knowledge and belief.

Place: Hyderabad.

Date:

(LEELA PRASAD KOTA)
