WORK EXPERIENCES

1. Microsoft Azure Trainer at Koenig Solutions

September 2024 - Present, Bangalore, India.

- Conducted corporate training sessions on Microsoft Azure certifications, including AZ-104 (Administrator), AZ-500 (Security Engineer), and AZ-900 (Fundamentals), providing hands-on guidance and conceptual clarity to professionals.

2. DevOps Engineer-1 at Discover Dollar

May 2022 - September 2024, Bangalore, India.

- Engineered DevOps Pipeline: Utilized Azure Bicep and GitHub Actions to develop a seamless Infrastructure as Code (IaC) pipeline, significantly improving deployment efficiency and consistency for 10+ resources.
- Optimized Azure Infrastructure: Successfully managed and optimized Azure resources, achieving a 12% reduction in cloud costs through strategic resource allocation, saving approximately \$2,000.
- Initiated fix in 4 different Azure Kubernetes Service (AKS) clusters by resolving critical CVEs in Docker images.
- Upgraded and tested container images to patch vulnerabilities, reduced their size, and enhanced overall system security and stability, mitigating 80% of vulnerabilities and significantly improving the security score.

3. Cloud Engineering Analyst at Searce Inc

February 2021 - August 2021, Mumbai, India.

- Orchestrated the seamless migration of on-premises infrastructure to Google Cloud Platform (GCP) for three distinct clients using Terraform, reducing deployment time and ensuring zero downtime
- Collaborated with cross-functional teams to analyze, consult, plan, and design GCP services, resulting in a 25% increase in overall system performance, cost optimization, scalability, and reliability.

SKILLS

- Cloud Platform:** Azure, Google Cloud Platform, AWS
- CI/CD:** Jenkins, GithubActions
- OS & Version Control:** Linux, Windows & Git, GitHub
- Automation & Scripting:** Bash, Python
- Containerization & Orchestration:** Docker, Kubernetes
- Infrastructure as Code:** Terraform, Azure Bicep
- Monitoring & Logging:** Azure Monitor, Prometheus, Grafana

PROJECTS

Automated Deployment of CIS-Compliant Hardened OS for Enterprise Servers

- Created an automated Ansible deployment process that enforced CIS policies on 60 production servers, improving security incident response time by 25% and ensuring consistent configuration management practices across the infrastructure.
- Rigorously tested scripts for Level 1 and Level 2 CIS benchmarks, reducing the exposure score to 22% out of 58%, significantly enhancing security compliance across the infrastructure.

TRAINING & CERTIFICATION

- Aviatrix Certified Engineer - Multi-Cloud Network Associate
- Docker (Linux world informatics Pvt Ltd)
- Terraform (LinuxWorld informatics Pvt Ltd)

EDUCATIONAL QUALIFICATION

B.Tech, Computer Science and Engineering

Lovely Professional University (June 2018 - June 2022)
