RBANMS FIRST GRADE COLLEGE
 - Bachelor of Business Administration
 - CGPA : 8.0
- 2018 - 2020**
NARAYANA JR. COLLEGE
 - Science [MPC]
 - CGPA :- 9.17

COURSE

DATA ANALYTICS, EXCELR SOLUTIONS
SEP 2022 – MAR 2023

"Developed advanced analytical skills in ETL processes, data manipulation, and cleaning using Power BI, SQL, and Excel. Proficient in creating visualizations and delivering actionable insights from complex datasets."

M. RAKESH KUMAR

MIS EXICUTIVE

PROFILE

Analytical and detail-oriented Data Analyst with expertise in Power BI, SQL, and Excel. Experienced in data cleaning, dashboard creation, and monthly budget analysis. Skilled in tracking KPIs, delivering actionable insights, and presenting data through clear visualizations. Proficient in ensuring data accuracy and streamlining processes to support strategic decision-making.

WORK EXPERIENCE

- Bhartiya Urban Pvt Ltd.** 2024 - PRESENT
MIS Exicutive
 - Conducted monthly budget analysis, tracking variances and ensuring financial accuracy.
 - Analyzed and managed data from multiple sources, delivering actionable insights.
 - Designed dashboards, reports, and systems to monitor KPIs and streamline processes.
 - Collaborated with IT to optimize MIS tools, ensuring compliance and functionality.
 - Trained staff and maintained documentation for MIS operations and best practices.
- Maruti flex traders LLP** 2023 - 2024
Data Management Executive
 - Data Analysis & Insights :-**
 - Conducted detailed analyses, including customer cohorts, sales trends, debtor patterns, and stock performance, driving data-driven strategies.
 - Designed and delivered CRM dashboards using Looker Studio, providing actionable insights and visualizing key metrics like client retention.
 - Generated daily performance reports on collections, debtors, and inventory, enhancing operational efficiency and decision-making.
 - Data Extraction & Cleaning :-**
 - Extracted and cleaned raw data from Tally into Google Sheets, ensuring accuracy and reliability for analysis and reporting.
 - Dashboard Development :-**
 - Developed CRM dashboards and client retention reports using advanced visualizations like step column charts, offering strategic insights.
 - Internal Collaboration Tools :-**
 - Built and managed internal Google Sites to centralize team resources, fostering collaboration and streamlined workflows.
 - Data Management & Reporting :-**
 - Structured and archived sales data, ensuring accessibility for analysis and seamless task tracking.
 - Facilitated virtual communication for task management using platforms like WhatsApp.

CERTIFICATES

- IBM Data Visualization, IBM
- Data Analyst, Excelr Solutions
- Data analytics Internship, AI Variant

LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Telugu (Fluent)

AI Variant Data Analyst Intern

2022 - 2023

- Data Cleaning and Pre-processing: Cleaned and pre-processed data using MS Excel, SQL, and Power BI to ensure data accuracy and reliability.
- Data Analysis and Modeling: Developed predictive models (linear regression, decision trees, random forests, clustering, and time series forecasting) with a focus on Power BI to derive insights and solve business problems.
- Visualization and Reporting: Utilized Power BI for data analysis, visualization, and reporting, contributing to informed decision-making and effective business solutions.

PROJECT

HR Attrition Analysis:

Conduct a comprehensive analysis of HR data using Power BI and Excel.

Data Analysis: Analyzed HR attrition data using Power BI and Excel, ensuring data integrity through meticulous ETL operations with Power Query. Insight Extraction: Identified correlations and patterns influencing attrition, providing actionable insights on satisfaction, work-life balance, age, and job roles. Visualization: Created interactive dashboards in Power BI, Tableau, and Excel to present findings and support informed decision-making.
