Objective

A Senior Android App Developer with 6 years' expertise in Java and Kotlin. Dedicated to crafting innovative, user-centric solutions and fostering collaborative, high-performance teams. Proficient in leveraging Kotlin's latest trends and cutting-edge tools for scalable Android applications.

Professional Summary

- Skilled in native Android app development using Java and Kotlin, leveraging Android SDK and Android Studio's latest features.
 - Expertise in crafting intuitive interfaces, integrating APIs, and optimizing app performance through Kotlin's expressive nature and strong grasp of OOPs principles.
 - Profound understanding of architectural patterns (MVC, MVP, MVVM) in Kotlin, ensuring scalable and maintainable solutions, effectively integrating multithreading concepts.
 - Proven track record in comprehensive code reviews, rigorous testing, and precise debugging using RxJava and coroutines for reactive and asynchronous programming.
 - Known for consistently delivering high-quality Kotlin code within project timelines, collaborating exceptionally well within teams, and utilizing frameworks like Hilt and Dagger for dependency injection.
-

Professional Experience

Senior Android Developer | The Indian Express Pvt Ltd | Noida | 09/2021 - Present

- Led UI/UX collaborations for captivating interfaces.
- Enhanced user journeys via advanced linking strategies.
- Conducted code reviews, nurturing junior developers.
- Pioneered GA and MoEngage integration for user engagement.
- Integrated third-party SDKs, enhancing app functionality.
- Contributed actively in Agile/Scrum meetings.

Software Engineer | ZMQ Technology for Development | Delhi | 01/2018 - 09/2021

- Developed impactful apps from concept to deployment.
- Resolved technical hurdles in location tracking, camera integration, and cloud storage.
- Designed dynamic form builders for user-driven surveys and real-time data sync.
- Worked closely with QA for thorough testing and quick bug resolution.

Technical Skills

- Languages: Java, Kotlin
 - Operating Systems: Windows, Linux, iOS
 - Web Technologies: XML, HTML5, JavaScript, CSS3, jQuery
 - Database Software: SQLite, Room, Realm, SharedPreferences
 - Project Tracking Software: Jira, Trello, Asana
 - Code Hosting Platform: Git, GitHub, BitBucket
 - IDEs: Android Studio, IntelliJ, Eclipse, NetBeans, Visual Studio Code
-

Education

B.Tech in Computer Science and Engineering | Dr. A.P.J. Abdul Kalam Technical University | 2017

Awards and Achievements

- First Prize Winner, IE HACK 2023 (Boosted mobile app notification CTR)
