OBJECTIVE

Seeking an entry-level position as a Cybersecurity Analyst to leverage CCNA skills and contribute to a company's security posture. Committed to continuous learning and skill enhancement, with the goal of becoming a successful cybersecurity professional and making a significant impact on organizational growth and security.

INTERNSHIP PROFESSIONAL EXPERIENCE

CYBER SECURITY INTERN | IBM

OCT 2023 – NOV 2023

- Engaged in steganography tasks leveraging Bash scripting and Linux commands
- Proficient in concealing and revealing confidential information using command-line techniques
- Successfully employed commands to covertly embed data within digital assets
- Executed extraction procedures to unveil concealed information
- Utilized Linux and Bash scripting commands for embedding and extracting secret information
- Used Bash scripting for automation processes

FULL STACK DEVELOPMENT | VARCONS TECHNOLOGY

AUG 2023 – SEP 2023

- Developed a portfolio website with a full-stack approach
- Front-end development using React JS
- Back-end development using Express JS and Node JS
- Implemented MongoDB for database management
- Gained experience in both front-end and back-end technologies

SKILL

Cybersecurity Fundamentals:

- Understanding of cybersecurity principles, concepts, and best practices, including knowledge of common cyber threats, vulnerabilities, and attack vectors.

SIEM & SOC:

- Basic understanding of SIEM tools like Splunk for security event log analysis. Familiar with foundational concepts of Security Operations Center (SOC) environments and incident monitoring.

Encryption Technologies:

- Understanding of encryption algorithms, SSL/TLS protocols, and hashing

Network Security:

- Understanding of OSI and TCP/IP models
- Knowledge of network protocols (TCP, UDP, ICMP, etc.)
- Basic understanding of network protocols, firewalls, IDS/IPS, packet analysis (Wireshark), OSI, TCP/IP, VPNs, and DNS

Security Tools:

- Wireshark, Metasploit, Nmap, Burp Suite, Hydra, Aircrackng, John the Ripper.

Penetration Testing:

- Basic skills with Metasploit, Burp Suite, and Nmap

Networking Fundamentals

- OSI and TCP/IP models
- Network protocols (TCP, UDP, ICMP)
- IPv4/IPv6 addressing and subnetting

Routing and Switching

- Configuring and troubleshooting
- Cisco routers and switches VLAN implementation and inter-VLAN routing
- RIP, EIGRP, and OSPF protocols

Troubleshooting

- Using ping, traceroute.
- Identifying and resolving network connectivity issues

Ethical Mindset:

- Commitment to ethical behavior and a strong sense of responsibility.

Programming & Scripting:

- Basic understanding of Python and Bash scripting.

Operating Systems:

- Windows and Kali Linux.

Network Configuration:

- Basic experience in configuring, verifying, and troubleshooting IPv4 addressing, Cisco routers and switches, and VLAN implementation.

Management Skills:

- Task management, time-management, attention to detail, multitasking, analytical skills

Communication Skills:

- Effective communication and interpersonal skills

Continuous Learning::

- Commitment to staying updated in cybersecurity

EDUCATION

Bachelor of Engineering. (Computer Science Engineering)

University in Bengaluru

2020 - 2024

- CGPA: 8.71
- Courses: CCNA, Cyber Security

PUBLICATION

Academic Articles:

- Smart Patients Bed Control With Health Tracker Using IOT and Image Processing". In House OF Bhola Research Papers Publication (hbrp)
- Authors: Mehak Taj, Mohammed Tamheed Shariff, Nimra Anjum & Nisarga BS

DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge and belief.
