PROFESSIONAL SUMMARY

Dedicated and results-driven IT professional with extensive experience in cloud computing, systems administration, and database management. Proficient in Amazon Web Services (AWS) for deploying and managing scalable applications, with a strong foundation in Linux environments for system performance optimization. Expertise in implementing DevOps practices to enhance collaboration, automate workflows, and streamline software development processes. Skilled in SQL for database design, query optimization, and data management, ensuring high availability and reliability of applications. Committed to leveraging technical skills to drive innovation and efficiency in fast-paced environments.

PRIMARY SKILLS

Linux - Ubuntu, CentOS	AWS - IAM, EC2 ELB,EFS,S3,VPC	Containerization -Docker
Scripting - Python	Version Control system -Git and Github	Networking

SECONDARY SKILLS

FrontEnd - HTML,CSS
Basics of SQL

PROFESSIONAL PROJECTS

ESXI ADMINISTRATION | SCHOLARLOGIC

VM Management :

- Provision, configure, and manage virtual machines (VMs) within the ESXI environment, ensuring optimal performance and resource allocation.

AUTOMATED SERVER DATA BACKUP AND STORAGE SYSTEM WITH AWS S3

- Developed automated scripts using AWS CLI to create compressed backups of server directories and push them securely to S3 buckets daily. This ensures data redundancy and facilitates quick recovery in case of server failures.
- Leveraged tar compression to reduce backup size and minimize storage consumption in S3. This cost-effective approach efficiently utilizes cloud storage resources.
- Crontab seamlessly schedule script execution, eliminating manual intervention and ensuring consistent, reliable backups. This reduces operational overhead and human error.

AWS INFRASTRUCTURE AUTOMATION WITH PYTHON AND BOTO3

- Implemented robust automation procedures utilizing Python's Boto3 module to orchestrate the creation of AWS infrastructure.
- Developed scripts to streamline deployment processes, significantly enhancing operational efficiency by reducing manual intervention.

EDUCATION

Bachelors of Technology in Electronics and Communication Engineering

- | | |
|---|-------------------|
| •GITAM school of Technology and Management, Bangalore | Jul 2019-Apr 2023 |
|---|-------------------|

Intermediate :

- | | |
|--|-------------------|
| •Sri Chaitanya jr College, Vijayawada. | Jun 2017-Apr 2019 |
|--|-------------------|
