**Whatsapp Messenger:** 9517103862 |

**Address:** Bhola Khera, Alambagh, 226023, Lucknow, India (Home)

### ABOUT MYSELF

Completed my Bachelors InTechnology in Computer Science Engineering from Manipal University Jaipur. My interest lies in the field of DevOps which is evident from my work experience. I am currently exploring for an open position as a DevOps engineer.

### EDUCATION AND TRAINING

10/2020 – 07/2024 Jaipur, India

**BACHELORS OF TECHNOLOGY-COMPUTER SCIENCE ENGINEERING** Manipal University Jaipur

**Final grade** 8.52 CGPA upto 7th semester

03/2019 – 05/2020 Lucknow, India

**12TH-CISCE** City Montessori School

**Final grade** 90.67%

03/2017 – 05/2018 Lucknow, India

**10TH-ICSE** City Montessori School

**Final grade** 92%

### DIGITAL SKILLS

Java | SQL | Elastic Stack | Docker | Prometheus | Grafana | AWS - EKS | AWS Secrets Manager | Elastic Load Balancer | Kubernetes (beginner) | Elastic Container Registry | AWS EFS | Jenkins - beginner

### WORK EXPERIENCE

03/07/2024 – CURRENT Gurgaon, India

**ASSOCIATE DEVOPS ENGINEER** NOISE(NEXXBASE PVT. LTD.)

24/01/2024 – 14/06/2024 Bengaluru, India

**CLOUD INTERN** COMMINT PVT. LTD.

My internship at Commint is focused towards technologies related to Devops, I have been exposed to Elastic Stack, Docker, Kubernetes, Prometheus and Grafana during my day-to-day tasks. Also my familiarity with the script language has increased as the Deployment of various services require me to use the same. This internship also requires me to use my analytical skills as I have been given the responsibility to select between similar technologies to check which one is better for the organization. So my internship here has not only enhanced my technical skills but also my inter and intra-personal skills.

12/06/2023 – 04/08/2023 Work From Home

**FULL STACK INTERN** WICTRONIX INFOTECH PVT. LTD.

As a Full Stack Intern at WictroniX, I was responsible for a variety of technical and management tasks, contributing to the success of projects and making a lasting impact on the department. Key responsibilities included:

Technical Tasks: Developed and maintained full stack applications, demonstrating proficiency in front-end and back-end technologies. Collaborated with team members to design and implement solutions that met project requirements and deadlines.

Management Contributions: Played an exceptional role in the Wicternship program, showcasing leadership and organizational skills. Provided valuable insights and recommendations in the management field, contributing to strategic decision-making processes.

Work Ethic and Dedication: Consistently exhibited a strong work ethic, attention to detail, and a genuine willingness to learn. Demonstrated the ability to work effectively both independently and as part of a team, adapting to dynamic project requirements.

Overall, my experience as a Full Stack Intern with management responsibilities at WictroniX has equipped me with valuable technical and leadership skills, paving the way for a promising future in the field.

## PROJECTS

### Stack Overflow Clone

This is a MERN Stack project. It is basically a clone of Stack Overflow with certain improvements made from my side, like I have used API Ninjas Image to Text API so that user need not type the entire code or question from the image instead he/she can simply upload the image, text will get extracted and is placed in the AskQuestion box.

Link <https://github.com/MadhvendraDixit/StackOverflowClone>

### Gym Management Website

This is a basic Gym Website for client site based technologies HTML, CSS, JavaScript, PHP and MySQL. I tried to keep the code as simple as possible for better understanding of the person going through it. I have made sure that the password of the client is only known to his/her only and not even to the website manager, for this I have used hashing technique. Project contains a Sign Up page, Log In page, Home page which comes before Log In and a after Log In page.
