RESUME OBJECTIVE

Highly motivated and dedicated AWS/AZURE DevOps Engineer with passion for continuous learning and professional growth. Skilled in CI/CD Pipelines, Configuration Management and Deployment Automation, I aim to contribute cloud infrastructure optimization and Scalability while growing my expertise in cutting edge DevOps practices.

PROFESSIONAL SUMMARY

- Working as Aws DevOps Engineer with 3 Years of experience in CI/CD implementation.
- Experience in Agile methodology.
- Working experience in Aws DevOps, Git, Terraform, Docker, Kubernetes, Jenkins, AWS, AZURE.
- Created AWS SAM templates for infrastructure provisioning and management.
- Experienced in setting up and managing OpenSearch clusters for real-time log monitoring and analysis, integrating with CloudWatch to streamline log ingestion and visualization.
- Proficient in AWS services(EC2,S3,Lambda,CloudFormation,Cloudwatch,Coginto,SNS,API Gateway,Event bridge,EBS,VPC,Subnet,Internet gateway,IAM, etc..) and best practices for cloud infrastructure management.
- Experience with containerization technologies such as Docker and Kubernetes.
- Strong knowledge of CI/CD processes and hands-on experience with Jenkins.
- Proficient in version control systems, specifically Git.
- Strong understanding of Azure cloud services and infrastructure, with hands-on experience in Azure DevOps and managing Azure resources like Virtual Machines, Virtual Network, Azure Monitor, Blob Storage, Active Directory.
- Strong scripting skills in Python, Bash, or PowerShell for automation tasks.
- Hands-on experience in automating infrastructure provisioning using terraform.

WORK EXPERIENCE

- Working as a **DEVOPS ENGINEER** in **NUBES OPUS PRIVATE LIMITED** from 6TH December 2021 to present.
 - DevOps Engineer – NubesOpus private limited
- Implemented a highly available and fault-tolerant web application using AWS services like EC2, ELB, and Auto Scaling.
- Built and maintained Dockerized microservices architecture, enabling rapid deployment and scalability.
- Designed and implemented a secure CI/CD pipeline using Jenkins, Git, and AWS services, ensuring efficient and reliable software delivery.
- Creating Branching and Merging Strategies for the development using Version Control System Git.
- Automated infrastructure deployment using terraform, reducing deployment time.
- Implemented Git for version control and collaborated with the team to establish effective branching and release strategies.

PROJECTS

Apache OFBiz ERP Development and AWS Hosting

- Hosted and managed Apache OFBiz ERP on AWS, configuring essential services like S3, EC2, IAM, and Auto Scaling through Terraform, reducing setup time by 30%.
- Employed CI/CD pipelines with Jenkins, optimizing software delivery by 40%.

- Utilized Docker for packaging and running all software dependencies, achieving a streamlined environment setup on EC2 instances.
- Managed version control using Git, ensuring seamless collaboration and versioning across the development team.

Hedge with AI

- Developed and integrated AWS Lambda functions to automate various processes, leading to increased productivity and reduced operational costs.
- Implemented IAM policies and managed user and group access permissions.
- Automating log uploading to AWS S3 and creating Lambda functions for process automation.
- Implemented access control mechanisms through token generation, ensuring secure access for authorized users.
- Secured APIs using Amazon Cognito by creating and managing authentication tokens.
- Automated error and alert notifications to subscribed users via SNS from CloudWatch Logs.
- Automated the log monitoring process, reducing manual effort and improving overall system efficiency.

TECHNICAL SKILLS

Version Control Tools	Git
Scripting Languages	Yaml and Shell
Cloud Services	Aws, AZURE
CI/CD	Jenkins
Web Servers	Apache
Design Tools	IntelliJ, Eclipse
Quality check	SonarQube
Automation Tools	Terraform

CERTIFICATIONS

PERSNOL DETAILS

Date of Birth: 14/May/1998

Languages Known: English, Hindi, Telugu & Tamil.

Address: House No. 2-12, Shivalayam street, Gopalapuram, East Godavari, Andhra Pradesh, 534316

EDUCATION

Bachelor of Technology (Electronics and Communications Engineering) Swarnandhra
institute of engineering and technology, India

DECLARATION:

I hereby declare that above mentioned particulars are true to the best of my knowledge and belief.
