Testing: Unit testing, Integration testing

Tools: Visual Studio, Visual Studio Code, SQL Server Management Studio (SSMS)

CERTIFICATES

Health Tech Specialization

Level 1 & 2

Java Full Stack Course at Kodnest

Completed 6 months Java Full Stack at Kodnest, Bangalore

PROJECTS

US healthcare Pre-Authorization System

Working on a US healthcare pre-authorization project involves ensuring that medical services or procedures are approved by insurance providers before they are performed.

04/2023 – present

Project Overview:

The US healthcare pre-authorization project focuses on streamlining the process of obtaining approval from insurance companies before patients receive specific medical services, treatments, or procedures. This process helps ensure that patients receive the necessary care while also managing costs and reducing the risk of denied claims.

UI Modernization of Resource Management Portal

Transforming User Experience: Modernizing our Resource management Portal

05/2022 – 02/2023

Project Overview:

Improve usability and navigation to provide a more intuitive and efficient user experience. Implement contemporary design elements, including clean layouts, intuitive navigation, and visually appealing interfaces. Ensure the portal is accessible to users with diverse needs, including those using assistive technologies. Integration with the updated UI.

EDUCATION

Bachelor of Engineering in ECE

Bangalore Institute of Technology 07/2017 – 11/2020 | Bangalore

Diploma in Electronics and Communications

BLDEA's S S M Polytechnic

07/2014 – 05/2017 | Bangalore
