PROFESSIONAL SUMMARY

Dedicated and detail-oriented Power BI Developer with 2 years of experience in designing, developing, and maintaining Power BI dashboards and reports. Proficient in data visualization, data analysis, and transforming complex data sets into actionable insights. Adept at working with cross-functional teams to gather requirements and deliver customized solutions. Strong problem-solving skills and a passion for creating intuitive and impact data visualizations to support business decision-making.

SKILLS

- **Programming Languages:** Python
- **Tool:** Power BI, SSIS, SSRS, MS Excel
- **Databases:** MySQL, Oracle SQL, MSSQL Server

EXPERIENCE

Software Engineer, Zensar Technologies

Jul 2021 - Jul 2023

- Developed and maintained complex SQL queries, Stored procedures, Functions, Triggers, and Packages to support various applications and business processes.
- Optimized SQL queries and PL/SQL procedures for better performance of reports.
- Designed reports using SSRS and Integrated SSRS reports with various data sources, ensuring accurate and up-to-date information is presented in the reports.
- Developed interactive and visually appealing dashboards to present complex data in a user-friendly manner, enabling stakeholders to make informed decisions.
- Designed and generate reports that provide insights into key business metrics, ensuring accuracy and clarity in the presentation of data.
- Created visual representations of data that highlight trends, patterns, and outliers, making complex data sets easier to understand and analyze.
- Developed and implement data models that support business intelligence and analytic, ensuring data integrity and optimizing performance.
- Extracted and analyze large data sets to uncover hidden patterns, correlations, and trends that can drive business strategy and decision-making.
- Optimized SSIS packages for performance, ensuring efficient processing of large data volumes and reducing load times.
- Performed statistical analyses to interpret data, identify significant trends, and support decision-making processes with quantitative insights.

EDUCATION

Bachelor of Engineering (Computer Science)

Saveetha School Of Engineering

Aug 2016 -Dec 2020

CGPA 6.9/10

Class 12th

Seetharamaiah Junior college

May 2014 – May 2016

Percentage - 91%

Class 10th - SSC

Jeevan Jyothi School

May 2013 – May 2014

CGPA 7.8/10

PROJECTS

TFG (Foschini Retail Group)

Sep 2021 - Jun 2023

- TFG Limited, also known as Foschini Retail Group, is a South African listed retail clothing group trading under various brands. The aim of the project was to leverage SQL for data extraction and manipulation, while utilizing Power BI for creating dashboards and visual reports to support business decision-making.

ACHIEVEMENTS

- **Value of Excellence** at Zensar Technologies - Recognition for hard work and efforts.

CERTIFICATIONS

- Oracle Cloud Platform Application Integration Specialist
- Oracle Support Accreditation
