Education

Indian Institute of Information Technology Nagpur

2018– 2022

- Bachelor of Technology in Computer Science and Engineering

Experience

Senior Software Engineer: ASAR Gaming Network – New Delhi, India

June 2024 – Present

- Developed the **System Design Architecture** for Opinion based **Trading System** and also **took interviews** for fullstack roles and **deployed** beta version in 2 months
- Implemented Backend for Opinon based Trading using Order Book Algorithms and deployed app on **AWS Lambda, AWS EC2, AWS ECS**, created some features in frontend
- Created **microservices** of Admin, User, Trade Engine and leveraged **BullMQ messaging queue** for data transfer across the services. Utilised caching which resulted in 10X less response time. **Added Load & Unit Testings**
- **Tech Stack: Javascript, NodeJS, Express, React, MongoDB, AWS ECS, EC2, Lambda, S3, Redis, Git, CI/CD**

Software Engineer: Infosys – Remote, India

June 2022 – June 2024

- Implemented Semantic Search Solution for client company which will help the CSR's for efficient search from large corpus of data with AWS ElasticSearch
- Won First Prize and Rank in ANZ Gen-AI Team hackathon by developing solution which will help credit analysts to determine credit rating of the company. Using Data from Stock Exchange Site, Latest News and Financial Report Releases of the company: [Link](#)
- **Tech Stack: Python, Javascript, NodeJS, Express, React, MySQL Git**

Software Engineer Intern: ArkaEnergy – Remote, India

Dec 2021 – May 2022

- **Tech Stack: Javascript, NodeJS, Express, React, MySQL Git**

Projects

Advance Backend Project

[Link:Advance_Backend_Project](#)

- **Javascript | Node | Express | MongoDB | Cloudinary | Postman**
- Created Social Media Backend using DB, Models, Controllers, Routes, Middelewares, Utils directories.
- Added Proxy for CORS and used MongoDB as the database. Implemented a file upload utility using Multer
- Added the Authentication Middleware using Access & Refresh Token & Used MongoDB aggregation pipelines

Employee Management System

[Link:SpringBoot_Backend](#)

- **Java | Angular | SpringBoot | Hibernate (SpringJPA) | MySQL**
- Implemented project using SpringBoot and CRUD operations using REST APIs endpoints

Golang Project

[Link:Golang_Project](#)

- **Golang | GoRoutines | Channels | Mutex**

Technical Skills

Proficiency: AWS, Docker, Kubernetes, Backend, Frontend, Database, AWS EC2, AWS ECS, AWS Lambda, Redis-PubSub, Redis, BullMQ, Python , Java , Javascript , C++ , C, HTML, CSS, ReactJS , NodeJS, ExpressJS, MongoDB, Git, Linux, Postman, Mac, Windows, HLD, LLD, SOLID, Design Patterns, System Design Golang, Angular

Achievements

- **Problem Solving:** Solved 2000+ DSA problems on different platforms. [All Certificates](#)
- **Springer Research Paper Publication:** Yoga Pose Rectification using Mediapipe & Catboost Classifier [Link](#)
- **Leetcode** Among Top 5-6% Coders WorldWide Rating & Gold Badge in **HackerRank** for Python, SQL, Java
