
PROFESSIONAL SUMMARY

Data-driven professional with 2 years of experience in defining KPI metrics, developing dashboard reporting, and providing data-driven solutions to drive business development across various business verticals. Proficient in SQL, data visualization, and dashboard reporting tools, with a strong track record of collaborating with growth leaders and stakeholders to analyze business challenges and recommend actionable strategies. Demonstrated ability to forecast, set targets, and deliver insights that influence business direction. Seeking a similar role to leverage my expertise in business analytics and data solutions in a hybrid work environment.

SKILLS

- **Programming:** Python, MySQL, MariaDB, NoSQL.
- **Data Management:** Relational Databases (SQL), data transformation, and cleaning.
- **Business Intelligence:** Dashboard & reporting using Tableau, Power BI, Frappe Insights, and ZOHO Analytics.
- **Collaboration:** Cross-functional teamwork for requirements gathering and solution delivery.
- **Data Repository Management:** Data discovery, transformation, and scaling pipelines.
- **Team Management:** Experience in handling a team of analysts to forecast and visualize data and provide solutions to various customers.

PROFESSIONAL EXPERIENCE

Data Analyst

Extension Technologies, (Delhi NCR)

[Oct 2023 – Present]

- Designed and implemented scalable data pipelines, integrating multiple data sources to support business operations.
- Automated data transformation and reporting processes, saving over 20 hours of manual effort weekly.
- Created dashboards for lead management and productivity tracking, budget and MIS reporting, performance analysis, project and task management, CRM dashboards, resulting in increased sales team efficiency and reduced lead conversion time.
