SUMMARY

Skilled MEAN Stack Developer with 2 years of experience developing scalable web applications using Node.js, Express, Angular, and JavaScript. Proficient in MySQL, MongoDB, and Cypress for frontend automation testing, with expertise in managing AWS and Docker environments.

EXPERIENCE

Full stack developer

Blackcurrantlabs Pvt. Lmt.

07/2022 - Present Malad, Mumbai

PROJECTS

IB EXPERTS (LMS)

Backend Lead

- Built the system from scratch, including database design, API development, and documentation
- Managed AWS infrastructure, including ECS, Fargate, S3, SNS, and RDS, ensuring seamless deployment and robust scalability
- Spearheaded the integration of third-party libraries and CRON jobs for notifications and emails, driving a 35% increase in user engagement
- Seamlessly integrated Google Calendar for scheduling doubt sessions, enhancing user experience by 40%.
- Integrated payment gateway with multi-currency support, enabling seamless transaction processing.

STROHAB (App)

Backend lead

- Collaborated closely with clients to refine requirements, driving an 80% reduction in delivery time by streamlining communication, aligning expectations, and ensuring rapid, precise execution
- Led team meetings to clarify deliverables and optimize task assignments, resulting in a more efficient workflow and improved team collaboration
- Utilized Sequelize ORM to implement complex APIs, enhancing code readability and optimizing execution time
- Collaborated closely with the Flutter development team to ensure seamless API integration, leading to a 90% reduction in bugs and smoother user experience

SYNTROPY (Construction Management system.)

Backend Developer

- Successfully integrated WhatsApp for real-time notifications and user interaction via webhooks, boosting user experience by 90% and ensuring instant communication
- Revamped the codebase with modular design and clear API documentation, enhancing maintainability and scalability.
- Utilized SendGrid to automate email notifications, ensuring adherence to roles and permissions, boosting client satisfaction by 70%

STULZ (Climate customized solution)

Automation Tester

- Utilized the Cypress automation tool to manage and execute over 300+ test cases, ensuring minimal fault ratio and maintaining high standards for code quality and accuracy.

SKILLS

Angular	Node.js	Express.js	MySQL
JavaScript	HTML	CSS	Sequelize
Socket.IO	JSON		
AWS	Docker	EC2	RDS
Fargate			
Firebase	Git	S3	SNS
Linux			
Automation testing	Cypress		
Database Design	REST API	Jest	API
Unity	VS Code	Postman	
Critical thinking	Time management		
Communication			

EDUCATION

Bachelor of Engineering

Mumbai university, 8.85 CGPS

2018 - 2022 Mumbai

HSC

Tarapur Vidya Mandir, 78%

2016 - 2018 Dahanu

SSC

St. Mary's High School, 79%

2016 Dahanu

TRAINING / COURSES

INTRODUCTION TO SCRIPTING IN Python

Coursera
