

Medha Gupta

COMPUTER SCIENCE UNDERGRADUATE @ INDIAN INSTITUTE OF TECHNOLOGY (IIT) Dh

EXPERIENCE

RnD Project: [Smart Mess IITDh](#) — IIT Dharwad [Aug 2023 – Nov 2023]

- Worked on user-friendly web and mobile interfaces with role-based authentication, concurrent loading, and error-handling mechanisms for seamless interactions.
- Prototyped backend systems, integrated frontend and backend components, and optimized for scalability to support 1500+ users using React, Firebase, and Node.js.
- Conducted user testing, refined features based on feedback, and ensured stability for a smooth experience across platforms.

Software Development Intern — EkStep Foundation [May 2023 - July 2023]

- Contributed to and implemented web applications with a user-friendly interface, allowing for seamless integration of AI algorithms for accurate natural language processing and speech assessment. Relevant skills: React, Node.js, Express.js, frontend technologies including HTML, CSS, and related frameworks, REST API integration and AWS services.
- Collaborated with a team of developers to ensure optimal performance and usability of the website. Automated development tasks to ensure efficiency.
- Created a web-based application that employs advanced learning techniques, improving users' retention and recall abilities with focus on UX design and functionality

EDUCATION

Indian Institute of Technology Dharwad — B.Tech in Computer Science and Engineering [2021 - 2025] - 8 CGPA

St Jerome's PU College, Bangalore — Senior High School [2019 - 2021] Class 12th - Secured 98.5% in PCM + Comp. Sci.

GEAR Inno. International School, Bangalore — High School [2017 - 2019] Class 10th - 94%

MISC. PROJECTS

Development of several utility Android and Web applications
Automating systems using various programming languages for complex tasks involving advanced logical reasoning
AI bot developed for optimal Othello gameplay using alpha-beta pruning
ID3 Decision tree algorithm implemented for dataset categorization
Blocks World Domain Solver created using a Best-First Search Approach with heuristic analytics

SKILLS

Programming Languages: Python, JavaScript, C/C++, Assembly
Frameworks: React, Angular, Node.js, Next.js, React Native (Android and iOS App Development), Redux, MERN
Software Tools & Technologies: HTML/XML, CSS, Git, AWS, AutoCAD, RESTful APIs (REST), LaTeX, Regex, Linux (Shell Scripting), Automation, Python AI/ML libraries, DevOps, UI/UX Design
Databases: MySQL, PostgreSQL, GraphQL, MongoDB
Relevant Coursework: Computer Architecture, Databases and Information Systems, Software Development for Scientific Computing, Design and Analysis of Algorithms, Artificial Intelligence, Data Structures and Algorithms, Operating Systems, Compiler Design, Computer Networks

AWARDS

Ranked among top 1% in Joint Entrance Examination (IIT-JEE)
Qualified KVPY 2019
99.83 percentile in state CET
SOF IEO: secured 6th rank internationally
Awarded distinction in 10th and 12th examination

LANGUAGES

English, Hindi
