

MEHALA KARNAN

Thanjavur, Tamil Nadu
+91 7418351336 | mehakarnan@gmail.com

Objective

Dedicated and detail-oriented Java Developer with 8 months of hands-on experience in developing, testing, and maintaining Java-based web applications. Proficient in object-oriented programming (OOP), debugging, and problem-solving. Skilled in leveraging frameworks like Spring Boot, Hibernate, and JPA to deliver high-quality software solutions. Seeking to contribute technical expertise and passion for development to a collaborative team environment.

Experience

- **Ebrain Technologies** October 2022 - May 2023
Java Backend Developer
 - Designed and developed scalable Java-based applications, achieving a 15% improvement in system performance by optimizing existing code.
 - Contributed to creating RESTful APIs, enhancing system integration efficiency by 20%.
 - Collaborated with team members to design and implement new features, improving functionality .
 - Debugged, tested, and optimized code for efficient application performance.
 - Utilized SpringBoot,JPA and Hibernate frameworks to build scalable applications and streamline data management.
 - Managed source code using Git, contributing to clean and organized version control.
 - Create, Optimize, maintain MySQL database.
 - Wrote SQL queries to retrieve and manipulate data from MySQL.
 - Managed source code using Git, ensuring 100% version control accuracy.

Technical Skills:

- **Programming Languages:** Core Java
- **Frameworks:** Spring Boot, Hibernate, JPA
- **Databases:** MySQL
- **APIs:** RESTful APIs,JDBC.
- **Tools:** Git, Eclipse IDE,Postman.
- **Other :** Debugging and Testing.

Soft Skills:

- Communication Skills
- Quick learner
- Willing to learn new Technologies
- Problem Solving skills
- Time management
- Team work and Collaboration
- Adaptability.

Projects

- **Kadan book**
Project Name: KadanBook
Programming Language: Core Java
Frameworks: Spring Boot, Hibernate
Web Service: RESTful API
Database: MySQL

IDE: Eclipse IDE

Description: KadanBook is a digital ledger solution designed for MSMEs , providing tools for financial management and accounting.

Key Features:

- Digital ledger to replace paper-based records
- Inventory tracking and transaction management
- Automated payment reminders and financial reporting

Benefits:

- Improved cash flow management

Enhanced accuracy and transparency in financial data

- Scalable and secure for business growth

Education

- **Sengamalathayar Educational Trust and Women's College** June 2019 - April 2022
B.Sc Mathematics
87.8

Languages

- Tamil - Native
- English - Professional
