Experience

Software Developer

September 2023 - September 2024 (1 Year)

IIT, Gandhinagar, Gandhinagar

IMS Team

- Utilized PHP, Laravel, MySQL, and SQL to enhance enterprise resource planning system functionalities, introducing 10 new features that improved user satisfaction.
- Promptly resolved 90% of student admissions and staff/faculty recruitment queries.
- Used JIRA for bug and defect management, streamlining tracking processes for portals and payment systems, resulting in a 20% decrease in resolution times and a 15% increase in project delivery efficiency.
- Performed manual test case reports to strengthen system security measures, resulting in a 10% decrease in potential security vulnerabilities.

PHP Developer

Jan 2023 - June 2023 (6 Months)

Nexis Infotech, Bharuch

Certification

Project

- Gained experience with HTML, CSS, Bootstrap, PHP, Laravel, Ajax, jQuery, and MySQL during an internship during the 8th semester contributing to the development of web application.
- Created an E-commerce website with strong front-end and back-end architecture, enhancing user experience and streamlining online transactions.

Blue Prism Foundation training | Summer Internship

July 2022 - August 2022

Blueprism—University

Certification

- Implemented Robotic Process Automation solutions using Blue Prism during the internship, achieving a 30% reduction in processing time and enhancing operational efficiency.
- Engineered and designed streamlined workflows using a visual designer tool, resulting in the creation of 5 automated processes that escalate consistency and project turnaround times.
- Learned to develop processes, including decision-making, exception handling, and altering process flow as per demand, which improved adaptability and process efficiency.

Projects

E-commerce Website for Shoes and Clothes shop | *Php, Ajax, JQuery* | [Project](#)

- Developed robust back-end functionality using **PHP, Ajax and jQuery** improving order management and customer data storage for 10 or more products.
- Developed secure login/logout sessions, ensuring data privacy and authenticating 3 roles.
- Simplified and customized a user-friendly interface that simplified product browsing, cart management, and checkout processes, designed for up to 50 products and aimed at reducing cart abandonment by 15%.
- Executed the integration of **Ajax and jQuery** technologies to elevate user experience through real-time content updates and seamless interactions, resulting in smoother browsing without page reloads and increased overall responsiveness.

Achievements

- Qualified the SIH internal hackathon by developing a project on drone detection system in the software category. The team competed against 15 other teams and secured a position in the top 5 in the first attempt. [SIH 2022](#)
