

MOHAN REDDY S

+91 6364513381 mohan.socanalyst@gmail.com

TECHNICAL SKILLS

SIEM & SOAR: **Microsoft Azure Sentinel & Splunk**
Email Security & Protection: **Phisher, Proofpoint**
Vulnerability Assessment: **Nessus**
Endpoint Security: **EDR Microsoft 365 Defender**
Ticketing Tools: **CRM, ServiceNow**
Operating Systems: **Windows Server & RHEL 6.X/7.X**
Other Monitoring Tools: **VirusTotal, AbuseIPDB, IP Void, URL Void, URLScan**

OBJECTIVE

Dedicated SOC Analyst with a passion for safeguarding organizational assets by ensuring the confidentiality, integrity, and availability of information. Seeking to leverage my expertise in security operations and automation processes to contribute to a dynamic and growth-oriented environment while continuously enhancing cybersecurity measures.

SUMMARY

- Possess around 3 years of experience in **SOC Monitoring** with a focus on incident management through **SIEM**.
- Experience on working in 24x7 operations of SOC team, offering log monitoring, security information management.
- Experienced in security **Monitoring and Operations** for continuous threat detection and mitigation.
- Skilled in creating and managing tickets in various ticketing tools.
- Worked with core teams to investigate the false and true positive alerts.
- Responsible for following all the steps in incident response process.
- Filling the Daily **health checklist**.
- Experience on **SIEM (Security Information and Event Management)** tools like **Microsoft Azure sentinel** and **IBM QRadar**.
- Capable of engaging with customers and internal teams to provide technical insights and analysis.
- Knowledge of email analysis & malware analysis
- Good Communication, co-ordination and interaction skills
- Good understanding of security concepts related to networking and applications
- Managed the lifecycle of security devices, creating processes where gaps were identified.
- Consistently drove and achieved SLAs and KPIs to meet organizational goals.

Technical Certifications

- **CEH Certification**
- **Microsoft AZ-500**
- **ChatGPT for Cybersecurity Certification** by SimplyLearn
- **Certified in Digital Security Essentials** via SimplyLearn
- **Fundamentals of Cybersecurity Certification** by Fortinet
- **Associate Certification in Cybersecurity** from Fortinet

CAREER EXPERIENCE

Project-1: Ecollab Application
Designation : SOC Analyst

October 2021 – March 2023
Bengaluru, India

Objective: Provided comprehensive security monitoring and incident management for the Ecollab application, ensuring data integrity and protecting against security threats.

Responsibilities:

- Leveraged Microsoft Azure Sentinel to monitor security events, identify potential threats, and implement preventive measures. Developed incident response plans tailored to project specific security needs, enhancing the application's resilience against cyber-attacks.
- Working on the **Microsoft Azure sentinel**, (console web console) providing operations support at the Security Operations Center for different member firms.
- Experience on Office365 into email gateway security to overcome phishing attacks.
- Good experience in **SIEM** tools like **Microsoft Sentinel & Splunk**.
- Effectively managed and resolved security incidents within SLA using ServiceNow, ensuring timely response, thorough analysis, and seamless incident closure to maintain organizational security.
- Handling the complete incident management framework cycle right from incident identification, incident containment, performing root cause analysis, suggestion and implementation of preventive and corrective controls and perform network analysis as needed on a case-to-case basis.
- Monitoring and identify positive security events from **Microsoft Azure sentinel** dashboard, Orion during the shift hours and take necessary action for the critical events that is seen during each shift's hours with deviations for all the environments that we support.
- Preparing daily and weekly dashboard on the security threats.
- Use the escalation process for multiple users impacting incidents all the time and keep update the management about the progress of incident.
- Will document the tickets fully with all the action taken for the incident and update it on frequent basis and maintain ticket quality by documenting it with all the required comments
- Created detailed SOP runbooks for handling various security alerts and incidents.
- Directly engaged customers during high-priority incidents, assisting them in mitigating attacks.
- Handling multiple customers globally analysing the customer for potential security attacks
- Understanding the incident based on to determine whether it's false or true positive.
- Troubleshooting **SIEM** dashboard issues when there are no reports getting generated or no data available.
- Support security incident response processes in the event of a security breach by providing incident reporting
- Determine the scope of security incident and its potential impact to Client network recommend steps to handle the security incident with all information and supporting evidence of security events.

Project-2: Nextgen Application

April 2023 -Present

Designation : SOC Analyst

Bengaluru, India

Objective: Enhanced security framework and streamlined security operations for the Nextgen application, focusing on incident detection, containment, and resolution.

Responsibilities:

- Conducted real-time log monitoring and analysis using **Splunk**, efficiently addressing incidents within **SLAs**.
- Created customized runbooks for common incidents, optimized response times, and ensured effective communication with team during high-priority incidents.
- Conducted real-time log monitoring and analysis using Splunk to address incidents efficiently within SLAs.
- Created and maintained customized runbooks for common incidents, optimizing response times and standardizing actions.
- Led high-severity incident response efforts, containing potential breaches and coordinating with cross-functional teams to ensure rapid resolution.
- Utilized Splunk to analyze logs, identify unusual patterns, and build custom dashboards for real-time visibility into security metrics.
- Improved incident triage accuracy by integrating contextual data from threat intelligence feeds, providing actionable insights for alerts.
- Automated repetitive incident response tasks using custom scripts to enhance operational efficiency.

- Conducted post-incident forensics, including root cause analysis, and provided recommendations to prevent future security breaches.
- Delivered security awareness training sessions for client teams, focusing on phishing risks and best practices to reduce human errors.
- Enhanced email security protocols by updating gateway rules and deploying AI-driven tools for better detection of phishing attacks.
- Collaborated with network and application teams to implement security measures like firewall updates and network segmentation.
- Created comprehensive dashboards and reports to track key performance metrics (e.g., **MTTD, MTTR**) and presented insights to stakeholders.
- Supported the incident management lifecycle, from identification and containment to root cause analysis and implementation of corrective controls.
- Troubleshoot **SIEM (Splunk and Azure Sentinel)** dashboard issues and resolved data flow disruptions to maintain consistent operations.
- Engaged in continuous improvement initiatives to refine incident response processes, aligning with industry best practices.
- Acted as a trusted advisor during high-priority incidents, regularly updating clients on event status, impact, and recommendations.
- Streamlined escalation processes to ensure timely communication and resolution of high-impact incidents.

Capabilities

- Good analytical and drafting skills.
- Keen interest in learning new things..
- Cool headed and tactful in times of crisis.
- Good convincing and communication skill.

Awards & Achievements Accomplishments

- Awarded as the Most Valuable Player Award in Azure Sentinel investigation
- Received Best Performer SOC Analyst award for year 2022 Second Quarter.

Education

Kandula Sreenivasa Reddy Memorial College of Engineering
Bachelor of Technology in Computer Science and Engineering

Aug 2016 – Sep 2020
Kadapa, AP

Personal Details

Name : Mohan Reddy S

DOB : 10/06/1998

Nationality : Hindu

Marital Status : Single

Declaration

- I hereby declare that all the details furnished above are true to the best of my knowledge.
