SKILLS

- RPA Tools: UiPath (Studio, Orchestrator), Automation Anywhere (AA 360, Control Room)
- Programming Languages: Python, C#
- Database Management: SQL, MS SQL Server
- Bot Monitoring & Troubleshooting: Error Logs, Exception Handling, Debugging
- Version Control: Git
- Support Documentation & Knowledge Management
- Problem-solving & Analytical Thinking
- Automation Frameworks: .NET
- Cloud Platforms: AWS, Microsoft Azure (for bot deployments)

LANGUAGES

English:  B2

Upper Intermediate

CERTIFICATIONS

- Robotic Process Automation - Automation Anywhere 360 / A2019 From Udemy
- Advance and Beginner Certificate From Automation Anywhere
- Complete UiPath RPA Developer Course: Build 7 Robots From Udemy

PERSONAL INFORMATION

Date of birth: 21/11/1997

Nationality: Indian

Gender: Male

RPA technology is changing how the world gets work done. Software robots—instead of people—do repetitive and lower-value work, like logging into applications and systems, moving files and folders, extracting, copying, and inserting data, filling in forms, and completing routine analyses and reports.

EXPERIENCE

April 2022 - Current

Application Support Associate *Telus International*, Gurugram, India

RPA Support Specialist with 2+ years of experience in supporting and maintaining RPA solutions using UiPath, and Automation Anywhere. Proven ability to troubleshoot, monitor, and optimise bots to ensure seamless automation in business processes. Adept at identifying opportunities for improvements, and providing effective solutions. Seeking to apply my technical expertise and problem-solving skills to contribute to [Telus International] RPA initiatives.

- Identified issues, analysed information and provided solutions to problems.
- Organised files to support efficiency and traceability.
- Engaged with customers to better understand needs and deliver excellent service.

EDUCATION

2021

Computer Science MCA (Master of Computer Application)

Maharshi Dayanand University, Rohtak, HR

2019

Computer Science BCA (Bachelor of Computer Application)

Maharshi Dayanand University, Rohtak, HR

PROJECTS

Automated Invoice Processing with UiPath

- Deployed and provided ongoing support for an RPA bot automating the invoice processing workflow, reducing human intervention by 60%.
- Conducted bot health checks and troubleshooting to ensure the automation ran without interruptions.

Customer Support Automation using Automation Anywhere

- Implemented a customer service automation solution to manage service ticketing, assisting customers through automated email and ticket tracking.
- Worked with the development team to optimize bot efficiency and reduce processing errors by 40%.

RPA Bot Monitoring and Issue Resolution

- Monitored and maintained the health of multiple bots in production, ensuring 99% uptime by proactively identifying potential failures and troubleshooting them before they impacted business operations.
