Calicut, India

Skills

- C#
- LINQ
- TypeScript
- JavaScript
- HTML5 \ CSS
- SQL Server
- MYSQL
- . NetCore
- ASP.NET
- Angular
- Bootstrap
- Web API
- EFCore

Tools

- Visual studio, Visual studio code
- SQL Server Management Studio, SSMS
- MySQL Workbench

Education Background

- **Bachelor of Technology** in Electrical and Electronics Engineering
Government Engineering College Palakkad(KTU)
CGPA: 7.2

Professional Summary

Experienced Full Stack Developer with over 2 years in Angular and ASP.NET Core, skilled in creating innovative web solutions that enhance user experience and drive business results. Committed to continuous learning and staying current with industry trends to deliver cutting-edge applications. Aiming to be a valuable team asset by leveraging technical expertise, problem-solving abilities, and a meticulous approach to achieve project success and support organizational growth.

Professional Experience

IoNob Technologies LLP | August 2022-Present

H2oERP

- Spearheaded the successful integration of modules for accounting, sales, purchase, stock, HRM, payroll, education, and reporting, amplifying productivity by 40% and enabling data-driven decision-making.
- Collaborated with product managers to re-envision and revamp the web application architecture and design.
- Tested software for bugs and operating speed, fixed bugs, cleaned code, and improved overall application performance.
- Built APIs that served data to the Angular front-end and mobile apps

StimesERP

- **Automated Dynamic Payroll System:** Automated payroll processes by creating dynamic salary components and customized salary structures tailored to various employee groups, simplifying payroll management within organizations.
- **Enhanced HR Operations Module:** Developed modules for HR functionalities, including leave configuration, leave settlement, and gratuity settlement, optimizing HR operations and reducing manual workload.
- **Advanced Timesheet Integration Solution:** Created an adaptable timesheet solution, integrating formats like client timesheets, staff attendance, and Excel timesheets, with advanced features for seamless data import and tracking.
- **Integrated Attendance Systems:** Integrated attendance data from both mobile apps and third-party attendance systems (Hikvision, Truin, etc.) into the ERP application using .NET APIs, enabling centralized attendance management.

ManpowerERP-SaaS

- **Dynamic Forms:** Developed dynamic forms using Angular reactive forms, leveraging APIs written with Dapper Context. Managed to minimize SQL injection attacks through optimized query handling and parameterized statements.
- **End-to-End Workflow Module for Approvals:** Built a robust workflow module to facilitate document approvals, streamlining organizational processes and improving approval traceability.
- **Master Data Optimization and Restructuring:** Led the restructuring and optimization of master data, refining data management from database architecture to codebase, enhancing performance and scalability.
- **Customizable Document Management:** Created a dynamic document management system where users can customize document types and properties, allowing for flexible document attachments as per user needs.
