ABOUT ME

Nikhilesh Dattatraya Giramkar, a highly motivated and organized food technologist from Pune, was born on the 10th of November in 1999. Holding a master's degree in food technology, with a strong academic record and a proven ability to work effectively in team environments. My key strengths include business analysis, communication, problem-solving, and a commitment to staying up-to-date with industry trends and technological developments. I'm passionate about harnessing technology to drive business success, improve processes, and foster innovation.

EXPERIENCE

Poona Flour and Foods, Hadapsar, Pune

A wheat flour and wheat product
manufacturing company
(August 2023 till present date)

As I was assisting the director and was the quality officer, I learned valuable knowledge about trends in wheat and products.

Over here, I was working in multiple departments, such as purchases, accounts, production, quality control, quality assurance, packaging, customer support, warehouse management, and overall administration management.

Alongside, I gained knowledge about company policies, intellectual property rights, GS1 for barcodes, legal compliance, ERP systems, prepared SOPs and company policies. During this, I had several visits to the Food Corporation of India (FCI).

Vasaya Foods PVT LTD. (As Intern)

A snack food industry based in Pune.

SKILL'S

- Can manage social media.
- Have good knowledge about the OS and various software.
- capable of multi-faceted data analysis.

INTEREST'S

- Rising Technology.
- Cooking
- Flavours
- Workout
- Sports

FACTS ABOUT ME

- My favourite hobby is to travel by road.
- I love to cook. My signature dish is biryani.
- My motto in life is to aim high, always be positive in any situation, and dress well at any occasion.

In August 2025 for three

Through my training and experience, I have learned about various aspects of snack food production, including extrusion, drying, frying, and packaging, and have received personal training on implementing production processes and maintenance management

Besides this, I also work with the **Rajasthan Mineral and Chemical in the Lokapur, Karnataka, a Rajasthan Barytes Limited group of companies**. This is a B2B company that manufactures wall putty for Asian Paints. There I have learned about the production/process and formulation of putty, inventory management, the dispatch process, ERP-SAP, and business management.

CERTIFICATE'S

1. FSSC 22000 vol 6.0 (with GMP, HACCP, ISO)

(Organized by Food Tech Professional Advice

Consultancy Ahmednagar, Maharashtra.)

2. Many more during academics.

PROJECT'S

I have worked on several projects during my academic career and published a thesis for the same.

1. Preparation of protein energy bar using dry fruits.

This was a basic experiment with the intention of being budget-friendly, and the ingredients that can easily be available and enhance nutritional values.

2. Preparation of vegan & sugar free finger millet cookies.

As per the trend, millets are becoming popular, and people are becoming vegan nowadays. Keeping this in mind, I formulate cookies that are vegan-friendly with no added refined sugar and can be said to be low-calorie too.
