

SKILLS

- **Programming Languages** : Java, Python
- **Libraries and Frameworks** : Spring Boot, Spring, Spring Data JPA, Redis, Kafka, Docker & Kubernetes
- **Tools** : MySQL, PostgreSQL, Git, Maven
- **Other Skills** : Data Analysis, Microservices, Data structures and Algorithms, Design Patterns, System Design, AWS

EXPERIENCE

Senior Systems Engineer

Infosys

Nov 2020 - Jan 2023

Hyderabad

Consumer Goods Company: Supply Chain Management Team (Backend Engineer)

- Developed and maintained high-performance **Spring Boot-based REST APIs** to manage end-to-end payment processing.
- Integrated **Kafka** for real-time payment event streaming, ensuring reliable message brokering between microservices, reducing system latencies, and enabling seamless transaction processing at scale.
- Implemented **Redis** for distributed caching, optimizing the retrieval of frequently accessed payment data, **reducing API response times by 40%** and improving overall application scalability.
- Collaborated with cross-functional teams to build APIs supporting various payment methods (credit cards, digital wallets, etc.), integrating with third-party payment gateways to handle secure authorization and settlement.
- Ensured secure and compliant API design by implementing **OAuth2, JWT, and encryption mechanisms** in line with industry best practices for sensitive payment data protection.

Financial Services Company: Data Reconciliations Team (Big Data Engineer)

- Executed data querying tasks utilizing **Hive** commands to verify data consistency in the production, enhancing data integrity.
- Created **SQL and Python scripts** to streamline weekly data reconciliation reports, expediting review procedures across multiple teams and enabling prompt decision-making.

PROJECTS

E-Commerce Application

<https://github.com/stars/Naga-Vivek/lists/ecommerce-project>

- Developed an E-Commerce backend application in a **microservices architecture** using the Spring Boot framework.
- Built the **PostgreSQL** database backend and incorporated **Spring Data JPA** for seamless data access.
- Orchestrated **user authentication and authorization** using the **Spring Security OAuth2** module for secure API endpoints.
- Wrote comprehensive unit tests using **JUnit** and **Mockito** to ensure code quality.
- Optimized data retrieval by leveraging **Redis Cache**, reducing **90% of fetching time**, while implementing Paging and Sorting techniques to minimize latency.
- Integrated **Kafka messaging queue** to trigger real-time notifications for end-users in response to relevant events.
- Formulated comprehensive **logging and monitoring** mechanisms to ensure the smooth operation of the application.
- Leveraged **Docker and Kubernetes** for containerizing and orchestrating the microservices for efficient deployment and scaling.
- Deployed the application on **AWS** using **Elastic Beanstalk**.

Movie Booking System

<https://github.com/Naga-Vivek/BookMyShow>

- Engineered a simple **REST API** for booking tickets using the Spring Boot framework, streamlining the booking process for users.
- Applied advanced **concurrency management** techniques to facilitate seamless handling of multiple bookings, resulting in an **80% improvement** in the user booking experience.
- Created a sturdy **MySQL database backend**, facilitating efficient CRUD operations to elevate data management capabilities.

Expense Sharing Application

<https://github.com/Naga-Vivek/Splitwise>

- Directed the development of **REST APIs** leveraging the **Spring Boot framework** to facilitate seamless user registration, group creation, expense management, and settlement processes.
- Applied innovative algorithms to **automate expense settlement**, resulting in a remarkable **90% reduction in time consumption** for users, thus optimizing debt clearance procedures.

EDUCATION

Scaler

Specialized in Software Development & Problem Solving

2024

Coursework: Data structures and Algorithms. Low-Level Design (LLD), Database Schema Design, Java Backend.

SRKR Engineering College

B.Tech in Computer Science | 7.83 CGPA

2020
