

Nagaraj Chandrakant Kalasagonda

Senior Software Engineer

Confident and determined Data Analyst with experience in utilizing data insights to solve complex problems. Skilled in Power BI, SQL, and data analysis, I am looking to leverage my expertise in a challenging environment, continuously strengthening my skills while contributing to the company's growth.

Statistical Analysis & Modeling

API Integration & Automation

TECHNICAL SKILLS

Data Analysis

Expertise in SQL, Excel, and Python programming to analyze datasets, uncover patterns, and draw insights.

Database Management

Skilled in optimizing queries and database performance in SQL Server and MySQL, with an emphasis on efficient data extraction and analysis.

API Integration & Automation

Proficient in API integration and workflow automation to streamline data pipelines, improving reporting accuracy and speed.

Data-Driven Decision Making

Ability to derive meaningful insights from complex datasets to guide business strategies and improve decision-making processes.

Collaboration and Communication

Adept at working cross-functionally with teams, translating data insights into actionable recommendations for both technical and non-technical stakeholders.

API Integrations

Automating data workflows for real-time reporting.

Statistical Analysis

Ability to analyze data using statistical tools to identify trends and patterns.

Data Visualization

Proficient in Power BI and Excel, translating data into interactive, visually impactful reports and dashboards for stakeholders.

Statistical Analysis & Modeling

Knowledge of statistical foundations and analysis using tools like Python to drive predictive modeling and decision-making.

Business Intelligence

Hands-on experience with BI tools and concepts, including a strong foundation in report generation and business data interpretation.

Technical Expertise

Strong command of SQL for data extraction, transformation, and reporting, along with experience in using API integrations to automate workflows.

Data Warehousing

Experience in managing large datasets and performing ETL (Extract, Transform, Load) operations.

Camunda RPA

Automating routine processes, improving efficiency in reporting and data entry.

WORK EXPERIENCE

Senior Software Engineer

SymphonyAI

08/2021 - Present

Bengaluru

Achievements/Tasks

- Data Visualization: Built dynamic visualizations using Matplotlib, Seaborn, and Plotly to represent trends, distributions, and correlations in data, enabling stakeholders to make data-driven decisions.
- PowerBI Expertise: Designed and developed advanced PowerBI dashboards for ITSM and ITAM modules, providing data-driven insights to leadership and streamlining incident management processes.
- -Data Manipulation: Leveraged Python libraries such as Pandas and NumPy to clean, manipulate, and analyze large datasets. Developed scripts to preprocess raw data, handle missing values, and perform data wrangling for accurate insights. -
- Automation: Automated reporting processes using SQL and API connectors, reducing reporting time by 50% and enhancing data reliability across departments.
- Custom Reporting with Izenda and DevExpress: Created custom data visualization solutions using Izenda and DevExpress, significantly improving accessibility of business intelligence for cross-functional teams.
- Data Quality Improvements: Led data validation efforts, reducing errors in datasets and improving the accuracy of internal and client-facing reports.
- Performed data cleaning and validation procedures, reducing data errors.

Senior Solution Engineer

Technodream Software Consulting Pvt Ltd (SapphireIMS- HxCentral)

02/2021 - 07/2021

Achievements/Tasks

- PowerBI Expertise: Designed advanced PowerBI dashboards for ITSM modules, providing leadership with data-driven insights and improving incident management efficiency.
- Data Validation & Accuracy: Led data validation efforts, reducing dataset errors and improving reporting accuracy.
- Hospital IT Solutions: Gathered requirements from hospitals to deliver tailored ITSM solutions, reducing paperwork and enabling patient record tracking with a Unique ID system.
- RPA Configuration: Configured Camunda RPA to automate hospital workflows, improving operational efficiency.
- SQL Query Development: Developed complex SQL queries for data extraction and analysis, creating dashboards and reports for management.

Software Development Engineer

Zinier Technologies Pvt Ltd

05/2020 - 02/2021

Bengaluru

Achievements/Tasks

- Developed automated data workflows using API integrations, enabling real-time updates and reporting for critical business processes.
- Created dashboards to monitor product performance, facilitating data-informed decision-making.
- Collaborated with cross-functional teams to deliver innovative product features, enhancing data accessibility for stakeholders.

Solution Engineer

Technodream Software Consulting Pvt Ltd (SapphireIMS- HxCentral)

03/2017 - 04/2020

Bengaluru

Achievements/Tasks

- PowerBI Expertise: Designed PowerBI dashboards for ITSM modules, providing data-driven insights to leadership and improving incident management.
- Data Validation & Accuracy: Led efforts to validate data, improving accuracy in internal and client-facing reports.
- Hospital IT Solutions: Delivered tailored ITSM solutions for hospitals, digitizing manual processes and automating workflows.
- RPA Configuration: Automated processes using Camunda RPA, streamlining hospital operations.
- Ticketing Tool Design: Designed and customized ITSM ticketing tools using JavaScript to meet specific hospital requirements.
