

SETTYPALLE NAGESHWARA REDDY

794, 11th main, Vijaya Bank Layout, Karnataka, Bengaluru 560076

☎ +91 9381378724 ✉ nageshsnr333221@gmail.com  [linkedin](#)

Technical Skills

Languages: Java, Python, HTML, CSS

Frameworks: Springboot, Junit, Mockito, Angular

Databases: MongoDB, MySQL, PostgreSQL, Elastic DB

Cloud Services: AWS - EC2, ECS, S3, Lambda, DynamoDB and CloudWatch

Developer Tools: Apigee, GIT, RabbitMQ, Jenkins, Postman, Splunk, Swagger Hub

Relevant Coursework

- | | | | |
|----------------------|-----------------------|----------------|--------------------------|
| • API Management | • Database Management | • Automation | • Data Structures |
| • REST Microservices | • Cloud Management | • Unit Testing | • Full Stack Development |

Experience

IBM India Pvt Ltd

Aug 2022 – present

Application Developer

Bengaluru, Karnataka

- Developed and optimized APIs with Java, Spring Boot and Hibernate, increasing system scalability by 40% while ensuring performance and reliability.
- Achieved 98% test coverage with JUnit and Mockito, increasing code reliability by 30% and reducing defects by 25%, leading to more stable production releases.
- Designed Apigee proxies to manage API requests, responses, security and reliability. Delivered services to external developers, partners, and customers in a controlled, secure environment.
- Utilized AWS services like ECS for API deployment, S3 with Lambda for data loading, DynamoDB for fast storage/retrieval, and CloudWatch for monitoring.
- Optimized database interactions using MongoDB, MySQL and PostgreSQL resulting in faster data retrieval and a 20% improvement in overall system performance.
- Built robust pub-sub models with RabbitMQ, enabling asynchronous message processing and reducing latency by 35%.
- Leveraged Splunk for real-time auditing and logging, ensured precise API specifications with Swagger Hub, and managed version control using GIT.
- Streamlined deployment processes by orchestrating Jenkins CI/CD pipelines, boosting development efficiency by 40%.

IBM India Pvt Ltd

Feb 2022 – July 2022

Intern - API Development and Support

Bengaluru, Karnataka

- Accelerated front-end and back-end development cycles by implementing Java Full Stack Development best practices, reducing feature release times by 15%.
- Collaborated with the development team in project management, applying skills in Java, Spring Boot, and other technologies, which improved project delivery timelines by 20%.
- Supported key application components, driving a 30% increase in system efficiency and a 25% boost in scalability for high-traffic environments through targeted code reviews and optimization.

Projects

Cache Loaders | Java, AWS s3 & lambda, RabbitMQ, DBMS

- Engineered efficient cache loaders to automate and scale data ingestion, cutting data processing times by 50% and improving database integrity through real-time updates.
- Utilized AWS Lambda functions to automatically trigger whenever new files were added to S3 buckets.
- Implemented RabbitMQ to process and load files asynchronously, reducing workload on databases by 40% and ensuring seamless scaling during peak traffic.

Certifications

- AWS Certified Cloud Practitioner – 2023
- Red Hat Certified Specialist in Containers and Kubernetes – 2022
- IBM - Trainee -Java Full Stack – 2022

Education

SASTA Deemed To Be University

Jul 2018 – May 2022

Bachelor of Technology in Information Technology

CGPA - 8.4/10
