WORK EXPERIENCE

Helios Web Service

Graduate Engineer Trainee [Data Analyst Role]

Feb'24 – Present

- Developed data-driven solutions to support routine problem-solving and provided detailed insights under supervision, improving team efficiency.
- Built data visualization dashboards in Microsoft Power BI to provide interactive insights, enabling team members to solve recurring challenges effectively.
- Managed data governance processes, ensuring accurate and reliable reporting.
- Streamlined reporting workflows, optimizing data analysis and interpretation, and aligning with a results-oriented approach.

Key Achievements:

- Enhanced Decision-Making: Delivered actionable insights, improving project planning and **increasing process efficiency by 20%**.
- Strategic Reporting: Created customized, scalable Power BI reports, **reducing supplier assessment time by 30% and improving sales forecasting by 25%**.
- Team Collaboration: Worked closely with cross-functional teams and supervisors, ensuring adherence to process orientation and managing tasks with agility.

Projects:

Supplier Performance Analysis

- Analyzed data from 50+ U.S.-based suppliers using Microsoft Excel and Power BI to identify areas of improvement in delivery, cost, and quality.
- Designed Power BI dashboards to **monitor KPIs, enhancing reporting by 40%**.

Storefront IQ

- Integrated multiple data sources for real-time tracking of sales metrics, **increasing forecasting accuracy by 30%**.
- Created a scalable framework for data visualization, **contributing to a 15% improvement in store performance**.

Upflairs Pvt. Ltd.

Jan'23 – Mar'23

Machine Learning Intern

- Built skills in Python libraries (Pandas, NumPy, Matplotlib) for data manipulation and visualization.
- Created a car price prediction model, applying machine learning for data analysis and predictive insights

ACHIVEMENTS

- Led and represented the team, achieving a **Runner-up position** in the prelims round of Smart India Hackathon (**National Level**).
- Selected in SSOC'22 and made contributions to open-source projects throughout the summer of '22.
- **Head a team** that achieved a remarkable top-3 position in an IT hackathon.
- **Served as a Coordinator** for the Fast Track Career workshop, a collaborative initiative between **Microsoft Learn Student Ambassadors, Azure, and GitHub communities**.
