Led multiple Proof of Concepts (POCs) that showcased technical leadership and innovation; resulting in the adoption of new technologies which increased system efficiency by 30% and slashed operational costs by 20%.

Transformed complex user requirements into actionable technical specifications; streamlined processes that reduced development time by 25% and decreased error rates by 15% in a high-stakes FinTech environment.

PROFESSIONAL EXPERIENCE

- **RecordBook** Banglore, India
Sr.Backend Developer Dec. 2022 - Sept. 2024
 - Enhanced backend performance and monitoring, achieving a 25% increase in processing speed and a 30% reduction in error rates through advanced server management with Node.js, TypeScript, JavaScript, NestJS, AWS, and MongoDB.
 - Directed all backend and server operations for mobile and web modules, boosting system uptime by 20% and reducing latency by 15% using Node.js, TypeScript, JavaScript, NestJS, AWS, and MongoDB.
 - Developed and implemented RESTful API solutions, facilitating seamless data exchange between internal systems and external partners, decreasing data synchronization time by 50% and enhancing operational efficiency by 30%
 - Engineered and deployed RESTful APIs that integrated with third-party systems, reducing manual data entry by 45% and improving data accuracy by 25% across platforms
- **Fibonalabs** Banglore, India
Backend Developer Jan.2020 - Nov. 2022
 - Spearheaded the creation of four robust backend applications, adhering to best industry practices for maintainable and scalable codebases.
 - Engaged hands-on in development activities, leveraging the AWS Serverless Application Model (SAM) framework for optimal results with microservices.
 - Led 4 backend app setups from scratch and improved the performance of the overall application by 30%.
 - Managed a team of 5 people in the backend mainly reviewing their code and assigned tasks
 - Utilized Nodejs, Nestjs, Typescript, AWS, MongoDB, MySql
- **WebReInvent** New Delhi, India
Backend Internship Jul. 2019 - Sep. 2019
 - Developed a College Management System website leveraging JavaScript, Node.js, and MySQL for robust backend functionality.
 - Developed college mgmt web app

EDUCATION

- **Dr. A.P.J. Abdul Kalam** Lucknow, India
Technical University July 2015 – Jun. 2019
B.tech(IT)
- **Jawahar Navodaya Vidyalaya** Firozabad, India
High School, (Science) July. 2014 –Jun.2015

SKILLS

- **Technical Skills:** Performance Improvement, Microservices, API Management, JavaScript, TypeScript, Node.js, Nest.js, Express.js, MongoDB, NoSQL, MySQL, AWS, GCP, API Gateway, AWS Lambda, Amazon S3, EC2, Load Balancer, Route 53, Amazon Lightsail, AWS Amplify, Serverless, SAM, Firebase, HLD, LLD, Database Admin, Performance Monitor, Git, Jest, Google APIs, Linux, Ubuntu, Nginx, REST API Design and Implementation.
- **Other Skills:** Agile Methodology, Leadership, Project Management, Communication, Teamwork, Data Analysis, Product Strategy.
- **Languages:** Hindi, English

ACHIEVEMENTS

- Best Development Team(Nov - Sept - Oct -2021)
- Performer of the month (Oct-2021)

CERTIFICATIONS

- High-Level Design Certification by [Scaler Academy](#)
- Introduction to Cloud Identity - [Google Cloud](#)
