- Project Management Tools: JIRA, Trello, Agile & Scrum methodologies.
- Operating Systems: Linux (Ubuntu), Windows.

Work Experience

Odoo Python Developer

CodeRize Technologies Pvt. Ltd. | Pune

Sept 2024 - Present

- Developed and customized Odoo 17 modules based on client requirements.
- Provided training and guidance to junior developers.
- Technologies Used: Odoo Framework, Python, ORM, PostgreSQL, GitHub, Linux.

Project

HCJMRI (Hospitality ERP) (Sept 2024 – Present)

- Developed custom Odoo 17 modules tailored for hospital management.
- Analyzed and modified existing Odoo 17 modules to enhance performance.
- Collaborated with project leads to gather functional & technical requirements.

Software Engineer

Trinesis Tech Pvt. Ltd. | Pune

Oct 2021 – Aug 2024

- Led Odoo ERP customization and module development.
- Managed Odoo migration from version 12 to 16.
- Designed and developed Django REST APIs for ERP integration.
- Worked on unit testing and code quality improvements using SonarQube.
- Technologies Used: Odoo Framework, Python, Django, PostgreSQL, AWS, GitLab, Trello, JIRA.

Projects

1. INQ (ERP Solution) (Feb 2024 – Aug 2024)

- Customized Odoo modules (Sales, Purchase, Inventory, Barcode, Website, etc.).
- Developed end-to-end ERP solutions based on business requirements.
- Enhanced performance and security of the system.

2. Flux ERP (Internal ERP System) (July 2022 - Jan 2024)

- Migrated Odoo 12 to Odoo 16, ensuring data integrity and seamless functionality.
- Customized HR, Attendance, Recruitment, Time off, Projects and Timesheet modules.
- Optimized database queries and ORM for better performance.

3. Teacher Domain (USA) (Jan 2022 – July 2022)

- Developed RESTful APIs in Django for seamless backend communication.
- Implemented unit test cases (Pytest) to ensure 80%+ code coverage.
- Integrated third-party tools for enhanced application functionality.

4. Social Media Platform (Nov 2021 – Jan 2022)

- Designed and developed Django REST APIs for social media features.
- Worked on database schema design and query optimizations.
- Fixed code quality issues using SonarQube.

Education

- Bachelor of Engineering (Computer Science) – 2020
Solapur University, Maharashtra
- Diploma in Computer Science – 2017
MSBTE University, Maharashtra

Certifications & Training

- Odoo 16 Certification Preparation (Udemy)
- The Complete Odoo 16/17 Technical Course: From Zero to Hero (Udemy)
- Python, Django, Django REST Framework Training (Trinesis Tech Pvt Ltd, Pune, 2021)
