Education

Maharaja Surajmal Institute of Technology	08/2019 – 05/2023
Bachelor of Technology in Computer Science	CGPA, 9.49

Experience

ZS Associates Company	08/2023 – Present
Data Enginnering Analyst	Gurgaon, Haryana
Streamlined data transformation processes using SQL and Python in Azure Databricks, improving data accuracy by 20% and reducing processing time by 25%. This enhancement led to faster, more reliable business decisions, directly boosting client satisfaction and operational efficiency. Ingested raw CSV files into Azure Data Lake Storage Gen2 and conducted real-time analysis using Azure Synapse Analytics. Delivered insights through weekly status reports to clients, improving decision-making efficiency by 25%. Optimized pharmaceutical data processing workflows using PySpark, increasing computational efficiency by 25%. This enabled faster analysis of critical pharmaceutical health data, supporting timely decision-making and improving patient outcomes. Utilized Tableau and Excel to create interactive dashboards and pivot tables with data visualizations. Managed comprehensive Quality Control (QC) checks, improving team performance and data insight quality by 20%.	

The Sparks Foundation	07/2021 – 08/2021
Data Analyst Intern	Gurgaon, Haryana
Built a full-stack banking application using PHP, MySQL, HTML, and JavaScript, focusing on efficient data mining, data management, and optimizing query performance, resulting in 10% faster transaction speeds and implemented solutions for product sales and innovation. Collaborated with team members using Git to manage code versions and ensure basic data integrity across multiple development environments, improving interpersonal skills and team productivity by 15%. Conducted detailed code reviews to optimize database queries and REST writing specifications and communicated the changes with attention to detail, leading to 20% progress in performance in data retrieval and overall system responsiveness. .	

Projects

Tokyo Olympics Azure Engineering ADF, Azure Synapse, Azure Databricks	Project Link
- The project focuses on building a comprehensive data engineering pipeline for the Tokyo Olympic Games, leveraging Azure services such as Data Lake Gen2, Data Factory, Databricks, and Synapse Analytics. - Implemented data validation and error-handling mechanisms, improving data quality and consistency across the pipeline by 20%. Designed the pipeline to handle high data volumes during peak events, ensuring zero downtime and increasing scalability by 30% . - Developed key performance dashboards using Power BI to deliver real-time insights from Olympics data, enabling future Olympic Associations to make informed decisions.	

Sparks Banking Website SQL, PHP, JavaScript	Project Link
- Designed a user-friendly banking application, integrating HTML and JavaScript front-end functionalities, which has raised user engagement rates by 50% through intuitive navigation features. - Improved user interface with advanced animation effects, resulting in a 15% increase in user engagement and integrated robust authorization and validation for secure access. - Designed and implemented JavaScript functions with back-end debugging, for real-time transaction updates, achieving 98% accuracy and successfully tested with 10 users .	

Technical Skills

Languages/Coding: C++, Python, SQL Developer Tools: VS Code, Power BI, Databricks, Azure Synapse, Azure Data Factory, Tableau	Technologies/Frameworks: Apache Spark Other Skills: DBMS, Statistics, OS, OOPS, ETL Dynamics, Microsoft Office Powerpoint/Excel, Data Analytics, Business Intelligence, Communication Skills
---	--

Achievements

- Achieved Semifinalist status in the TechGig Engineer Code Gladiators contest, demonstrating problem solving skills, process improvement, and data structures analytical skills among thousands of participants. - Completed the LetsGrowMore-SOC open-source research program in total rewards, contributing to innovative market web projects and enhancing data reliability and visualization techniques. - Earned Microsoft AI-900 Certification and Reltio SQL Integration Certifications in Data Engineering and Analytics, showcasing expertise in data engineering and analytics.
