EDUCATION

Swami Keshvanand Institute of Technology, management & Gramothan

Jaipur, RJ

B.Tech in Computer Science & Engineering , CGPA-8.3

Jul. 2018 – Aug. 2022

Sh. Maheshwari Sr. Secondary School

Jaipur, RJ

Science , percent -87.3%

Jul. 2015 – Jul. 2016

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (Postgres)

Frameworks: Pyspark, FastAPI

Developer Tools: Azure Cloud, Azure Synapse Analytics, Databricks, Azure Data Lake, Azure DevOps, ETL(Extract, Transform, Load), MS-SQL Server , Microsoft Power BI

Libraries: pandas, NumPy, Email

Coursework: OOPs , Data Structures, DBMS

EXPERIENCE

Data Science

July 2022 – Present

Nagarro Software Private Limit.

Jaipur, RJ

- Developed reports for a BFSI Client using **Pyspark** and orchestrating daily data transfers to a **Data Lake** through an **Azure Data Factory** (ADLS Gen2) pipeline.
- Implemented an email trigger for daily reports, monitoring data validation from the raw zone to the curated zone.
- Monitoring Production Support for Pipeline Monitoring and Handling Pipeline Failures for Daily Reports Updates into Staging Zone.
- Developed and optimized T-SQL Stored Procedures on Azure Synapse, streamlining HR Module processes and reducing data retrieval time by 50%, resulting in improved system performance and enhanced user experience..
- Accelerated a data transfer from one server to another server using the **SSIS** Integration tool which increased data transfer by 10x.

Associate Engineer - Internship

Jan. 2022 – June 2022

ATCS

Jaipur, RJ

- Performed Pre-processing of Data Using Python and Pandas.
- Founded Different Service Contract Package for with Different KPIs.
- Worked Adhoc Requirements of Python Scripts.
- Analysed data Redundancy using Numpy and Pandas.

Data Analytics - Virtual Internship

June. 2020 – Jul 2020

KPMG

Remote

- Cleaned Data Using **Pandas** and **Numpy**: Handling Null Values, Data Redundancy, and Identifying Key Performance Indicator (KPI) Columns.
- Designed Dashboards Using **Tableau** according to Business Requirement.
- Made Presentation for Project to represent the whole Project.

PROJECTS

Voice Assistant | *Speech recognition, Python, PYTTSX3, PYWHATKIT*

- Developed a Voice Assistant that takes text from Google Search to Give Results.
- Achieved 95% accuracy with model.
- Used libraries like Speech recognition, PYTTSX3, PYWHATKIT, etc.

Weather App | *Weather data API, Java, Git*

- Developed Android App using Java and using a third-party Weather API.
- Provided temperature in different regions across the World.
- Integrated Weather Data **API** to view Real-time Weather data.

House Price Prediction | *Python, Numpy, Pandas*

- Developed House Price prediction Model Using Integrated Flask Library.
- Provided temperature in different regions across the World.
