WORK HISTORY

Cyber Security Director, **Inspira Enterprise Pvt Ltd**

August 2024 - Till date

- Strategic Leadership: Define and drive the vision, strategy, and roadmap for the MSSP practice in alignment with organizational goals and evolving cyber security trends.
- Service Portfolio Development: Design and enhance a comprehensive portfolio of managed security services including SIEM, SOAR, threat intelligence, MDR, vulnerability management, and compliance monitoring.

- **Team Leadership & Development:** Build, lead, and mentor cross-functional teams including SOC analysts, threat hunters, incident responders, and service delivery managers.
- **Technology & Vendor Management:** Evaluate, select, and manage strategic security technology partnerships (e.g., SIEM, EDR, XDR platforms) to support scalable MSSP offerings.
- **Governance, Risk & Compliance (GRC):** Ensure MSSP services align with global compliance standards (e.g., ISO 27001, NIST, SOC 2) and support clients in regulatory readiness.
- **Innovation & Market Analysis:** Stay ahead of emerging threats, market shifts, and new technologies to evolve MSSP services and maintain a competitive edge.
- **Reporting & Metrics:** Define KPIs, generate executive reports, and communicate security posture and value to stakeholders and clients.

Senior Manager - Cyber Security, FICO: Fair Isaac Corporation
September 2018 - July 2024

- **Lead & Manage the Global Cyber Security Center:** I spearheaded the development and maintenance of the organization's 24/7 SOC and Incident Response program. It's 24 member team, with 3 Cyber Security Managers reporting directly to me.
- **Cloud Security:** Responsible for all aspects of AWS security including designing, architecture, alerting, RCA, mitigation and forensics.
- **Threat Hunting:** Analyze large and unstructured data sets to identify trends and anomalies indicative of malicious activities. Develop and maintain threat detection rules, signatures, and indicators of compromise (IOCs). Provide situational awareness of the current threat landscape and the techniques, tactics, and procedures associated with specific threats.
- **Compliance:** Ensure compliance with relevant security standards, regulations, and industry certifications applicable to India, such as ISO 27001, PCI DSS, and GDPR.

Assistant Manager, Wipro Technologies
July 2016 - September 2018

- **SOC Manager:** Lead and manage a 24/7 Incident Response team including a Network Forensics team for a US based Financial organization.

Associate Security Consultant, Tech Mahindra Limited
June 2014 - July 2016

- **SPOC and Security Lead** for 2 Cyber Security Projects.
- **Drive creation, testing, and deployment of correlation rules,** continuously fortifying defense mechanisms against emerging cyber risks.

Senior Systems Engineer, **Wipro** Technologies

December 2012 - June 2014

- Expertly administer RSA Envision SIEM for seamless functionality and optimal performance.
- Drive creation and meticulous fine-tuning of correlation rules to match organizational needs precisely.

Technical Support Lead, **Prism Networks**

February 2008 - November 2012

- Deployment, maintenance, use-case creation of our SIEM software on client networks.
- Interact with collaborate with Engineering team to resolve issues related to 'In House' SIEM – Event Tracker.

Network and Desktop Technical Support, **Hewlett Packard Global Soft , AOL, B2K, PROGEON**

September 2003 - February 2008

- Technical support for installation, configuration, and maintenance of all aspects related to Routers and Workstations.
