

Nirupama Pal

Bengaluru, India, 560049 | (+91) 7894855475 | nirupamapal95@gmail.com | www.linkedin.com/in/p-niru95

Profile

Dedicated Senior Software Engineer with over 6 years of experience in designing, developing, and optimizing impactful software solutions. Skilled in C#, ASP.NET MVC, SQL Server, and Web API development, with a proven ability to deliver scalable, high-performance applications. Known for analytical problem-solving and a proactive approach to production support, I excel in full-stack development and enhancing user experience. I am a collaborative team player, I thrive in fast-paced environments, continuously striving for technical excellence and innovation.

Skills & Abilities

- **Programming Languages & Frameworks:** C#, ASP.NET MVC, .NET Framework, Web API
- **Database Management:** SQL Server (2012, 2017, 2019, 2022), Entity Framework
- **Frontend Technologies:** HTML, JavaScript, jQuery
- **Design Patterns:** MVC, Singleton
- **System Optimization:** Production support, troubleshooting, and performance tuning
- **Data Handling:** Proficient in SQL Server optimization and secure data manipulation
- **API Development:** Experience in designing and implementing Web APIs for seamless integration

Experience

SENIOR SOFTWARE ENGINEER | FIRST AMERICAN INDIA | JULY 2022 – PRESENT

- Spearheaded production support and feature upgrades in the FAST application, leading to enhanced performance and user satisfaction.
- Utilized full-stack skills in HTML, JavaScript, jQuery, .NET Framework, and ASP.NET MVC5 for development, while optimizing SQL Server 2022 to improve data handling.
- Collaborated with cross-functional teams to troubleshoot complex issues, contributing to a more stable and responsive system.
- Led the successful migration of legacy components to updated frameworks, resulting in a 50% improvement in maintainability and a 20% decrease in technical debt.
- Spearheaded a cross-functional initiative to optimize the FAST application’s load time, reducing the average page load by 2 seconds and enhancing user satisfaction metrics by 30%

ADVISORY SYSTEM ANALYST | IBM INDIA | FEB 2022 – JULY 2022

- Managed real-time production incidents by analyzing logs, identifying root causes, and delivering quick solutions, minimizing downtime.
- Worked across teams to ensure the smooth operation of critical systems and maintained high standards of service reliability.

SOFTWARE DEVELOPER | ESSPL BHUBANESWAR | MAR 2019 – FEB 2022

- Developed web applications using ASP.NET MVC5, focusing on frontend and backend development, data manipulation in SQL Server, and secure user identification through WCF services.
- Key projects included Global Visibility Solutions (GVS) and HITACHI (FVID), where I enhanced system efficiency, scalability, and security.
- Provided consistent production support and application enhancements, ensuring robust and reliable software solutions.
- Delivered a 20% increase in system efficiency by optimizing database operations and implementing the best practices in code.
- Reduced data retrieval time by 35% by streamlining SQL queries and enhancing database indexing strategies.

Education

BTECH. IN COMPUTER SCIENCE | JUNE 2016 | BIJU PATTANAIAK UNIVERSITY OF TECHNOLOGY, BHUBANESWAR
