## SKILLS

- Python / Java
- AWS
- Ubuntu / AlmaLinux / Windows
- MongoDB / MySQL
- Reactjs/ Nextjs
- Git
- Microsoft Office
- cPanel / Plesk
- Apache Spark/ Data Analysis
- Tableau / Power Automate
- Jira

## EDUCATION

### Master of Computer Application

Kristu Jayanti College , Bengaluru  
CGPA : 7.35  
2021-2023

### Bachelor of Computer Application

Kristu Jayanti College , Bengaluru  
CGPA : 7.49  
2018 -2021

## AREA OF INTEREST

Cloud Computing  
Software Testing  
Data Analytics  
Robotics  
Project Management

## PROFILE

Experienced Linux administrator and web developer with strong problem-solving and leadership skills. Aspiring cloud engineer focused on mastering cloud solutions, with proficiency in troubleshooting, debugging and multitasking. Committed to continous learning, efficiency and knowledge sharing

## WORK EXPERIENCE

### Cloud Technical Support L1 and Software Developer

HostUpCloud Technologies, Bangalore, Karnataka, India  
May 2024 - present

- Provided Level 1 technical support for cloud hosting, troubleshooting Active Directory issues, and optimizing client configurations for improved performance.
- Performed server maintenance and monitoring tasks to enhance uptime efficiency and ensure the security of cloud environments.
- Developed and deployed web applications, collaborating with the development team on projects to elevate user experience and optimize performance in cloud.

### Robotics Software Engineer

Kristu Jayanti, Bangalore, Karnataka, India  
Mar 2023- Apr 2024

- Contributed to the calibration, testing, and assembly of robotic parts, ensuring optimal performance and functionality.
- Gained expertise in ROS and Linux, using its tools to design and manage robotic systems, with a strong grasp of nodes, topics, messages, and services.
- Worked on object detection algorithms and AI chatbot development, integrating machine learning models to enhance robotic capabilities and interaction
