

ASHISH PAL

PL/SQL Developer, Oracle EBS, APEX Developer

Email -ashishpal1703@gmail.com

Mobile -91-6394899171

PROFESSIONAL SUMMARY:

- Around 3.1 years of experience in Application Development using Oracle SQL, PL/SQL, and Developer Oracle Application Express (APEX).
- Proficiency in analysis, design, development, testing, implementation and maintenance of applications in Oracle Application Express (APEX) and client/server configurations.
- Excellent conceptual knowledge of Oracle 10g/11g, PL/SQL and SQL.
- Experience in Database design using Normalization and E/R Diagrams.
- Rich experience in writing SQL queries, Views, Materialized views, PL/SQL procedures, functions, packages, triggers, cursors, collections, Ref cursor, cursor variables, System reference cursor, Dynamic SQL.
- Experience in developing External Tables, Joins and sequences.
- Good knowledge in front end development using workflow and API/WEBADI/OAF /reports6i/9i/10g.
- Extensively worked with third party database tools like TOAD & PL/SQL Developer.
- Strong knowledge of Extraction Transformation and Loading (ETL) processes using UNIX shell scripting, SQL, PL/SQL and SQL Loader.
- Good in creating users and maintaining their roles and responsibilities.
- Experience in writing technical design documents and developing unit test documents.
- Hands-on experience with Oracle APEX 3.2/4.0/4.1 (Oracle Application Express).
- Strong interpersonal skills, ability to interact with people at all levels. Good communication and presentation skills.
- **TECHNICAL SKILLS:**
 - Languages: SQL, PL/SQL, JavaScript, HTML, CSS
 - Tools: Oracle APEX, Oracle SQL Developer, TOAD
 - Databases: Oracle 11g/12c/19c
 - Frameworks: Oracle APEX, jQuery
 - Other Tools: Git, Jenkins, JIRA
 - Operating Systems: Windows

Education

- Bachelor of Technology in Computer Science Bhabha Institute of Technology, Kanpur -2020

Employment History

- Currently working as an **Oracle APEX DEVELOPER** in **Transasia Bio-Medicals Ltd**
- In Mumbai from Nov-2021 to till

- Worked in 4 projects includes implementation, support work. The project details and
- work duties which I have performed have been described below.

Project (1)

1. Client	Transasia Bio Medical Ltd
Environment	Oracle 19C
Duration	Nov-2021 To Till
Role	Oracle APEX Developer
Project Scope	Implementation

Responsibilities

- Developed and deployed the IBD DB Portal, streamlining internal data management processes and improving accessibility for users.
- Created the RFQ Module, enabling efficient management of Requests for Quotations, reducing manual errors by [X]%.
- Built a QR Scanner module within Oracle APEX, facilitating real-time data scanning and validation for inventory tracking.
- Optimized database queries and enhanced application performance by [X]% through structured PL/SQL programming.
- Collaborated with cross-functional teams to define project requirements and deliver user-centric solutions.
-

Project (2)

1. IBD DB Portal

Objective: Designed and developed a centralized database portal for managing internal business data.

Technologies: Oracle APEX, PL/SQL, JavaScript.

Outcome: Improved data retrieval speed by [X]% and ensured high data accuracy.

Responsibilities

- Developed and deployed the IBD DB Portal, streamlining internal data management processes and improving accessibility for users.

Project (3)

2. RFQ Module

Objective: Implemented a Requests for Quotations (RFQ) system for efficient quotation processing.

Technologies: Oracle APEX, SQL, JavaScript.

Outcome: Streamlined the RFQ workflow, reducing turnaround time by [X]%.

Responsibilities

- Created the RFQ Module, enabling efficient management of Requests for Quotations, reducing manual errors by [X]%.

Project (4)

3. QR Scanner

Objective: Built a QR scanning feature integrated into an Oracle APEX application for real-time data validation.

Technologies: Oracle APEX, PL/SQL, jQuery.

Outcome: Enhanced inventory management accuracy and reduced processing errors.

Responsibilities

- Built a QR Scanner module within Oracle APEX, facilitating real-time data scanning and validation for inventory tracking.

Achievements

Recognized for delivering the IBD DB Portal project ahead of schedule with [specific achievement, e.g., zero bugs during UAT].

Increased application performance and database efficiency by optimizing complex queries.

Trained [X] team members on Oracle APEX best practices, enhancing team productivity.
