2012

CS

Visveswaraiah Technological University (VTU)

WORK EXPERIENCE

May 2024 - Present

Senior Data Analyst

TATA Consultancy Services (Payroll RiskInsight)

Managed Mule and Shell account integrity through effective use of SQL and analytics skills

- Enhancing knowledge of various money mule profiles is essential for crafting robust detection strategies that leverage pattern recognition software
- Identified and mitigated potential financial risks by monitoring accounts for unusually large or frequent transactions, focusing on patterns inconsistent with the customer's profile to prevent money laundering and detect fraud cases.
- Detected patterns of frequent cross-border transactions lacking a legitimate business rationale utilizing big data analytics to flag potential financial crimes
- Engaged and persuaded potential money mules into the scheme by crafting compelling narratives or enticing offers for effortless earnings
- Enhanced transparency for stakeholders by analyzing accounts of businesses lacking a clear economic purpose or exhibiting characteristics of shell companies using data analytics tools

Name screening

Big query

Josh

Josh is a made in India short video app that aims to be the new popular video-sharing app in India. Ever since the highly popular video-sharing app TikTok was banned, there has been a huge gap left in the market for a good video sharing app. Many apps have emerged since then in the place of TikTok and Josh is the most prominent of them. Josh app already has more than 100 million+ downloads on Google Playstore. The app provides a lot of exciting features options to edit and shoot videos and photos
